

PART A — MODULE 1 QUESTIONS

RW3-M1-001

Prompt:

Physicist Chien-Shiung Wu designed a careful experiment in 1956 that helped test a major idea about particle behavior. Her results challenged what many scientists had assumed and influenced later research in physics. Because of this impact, Wu’s work is often described as _____ in the history of modern science.

Question:

Which choice completes the text with the most logical and precise word?

- A) routine
- B) significant
- C) unrelated
- D) temporary

RW3-M1-002

Prompt:

Some school cafeterias have high ceilings and hard floors that cause sound to bounce around the room. When many students are talking at once, the noise can become distracting. Installing sound-absorbing panels on walls and ceilings can make the space quieter by reducing echoes.

Question:

Which choice best states the main idea of the text?

- A) Sound-absorbing panels can help reduce noise in school cafeterias.
- B) High ceilings are the only reason cafeterias become noisy.
- C) Students usually prefer cafeterias with hard floors.
- D) Echoes are useful because they help students hear conversations clearly.

RW3-M1-003

Prompt:

A student recorded the number of seedlings that sprouted in four trays.

Tray	Number of seedlings sprouted
1	12
2	18
3	15
4	20

Question:

Which choice best describes the data in the table?

- A) Tray 4 had the greatest number of seedlings sprouted.
- B) Tray 1 and Tray 3 had the same number of seedlings sprouted.
- C) Tray 2 had fewer seedlings sprouted than Tray 1.
- D) The number of seedlings sprouted decreased from Tray 1 to Tray 4.

RW3-M1-004

Prompt:

Jonah used to rush through his drawings, filling a page quickly and moving on. In art class, his teacher asked him to spend ten minutes looking closely at a single leaf before sketching it. At first, Jonah felt impatient, but soon he noticed tiny veins and uneven edges he had never paid attention to before.

Question:

Which choice best describes what happens in the text?

- A) Jonah learns that careful observation can change how he draws.
- B) Jonah decides to stop drawing leaves because they are too difficult.
- C) Jonah proves that quick sketches are always more accurate.
- D) Jonah teaches his art teacher a new drawing method.

RW3-M1-005

Prompt:

In a passage about early radio broadcasting, a writer explains that live programs sometimes included unexpected pauses, mistakes, or background sounds. The writer adds, “These imperfections can make old recordings feel less polished than modern broadcasts, but they also remind listeners that the programs were created in real time.”

Question:

What is the main function of the quoted sentence?

- A) It explains how flaws in old radio recordings can reveal something about how the programs were made.
- B) It argues that modern broadcasts should include more mistakes and pauses.
- C) It lists the types of equipment used in early radio studios.
- D) It shows that old radio programs were never performed live.

RW3-M1-006

Prompt:

The city’s winter festival includes music, food vendors, and ice sculptures. _____ visitors can take free walking tours of historic buildings downtown.

Question:

Which choice completes the text with the most logical transition?

- A) In addition,
- B) By contrast,
- C) However,
- D) Instead,

RW3-M1-007

Prompt:

Each of the science notebooks _____ a label with the student’s name and class period.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) have
- B) has
- C) having
- D) were having

RW3-M1-008

Prompt:

The poem was written by Joy Harjo, _____ former US poet laureate whose work often draws on memory, music, and history.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) a
- B) an
- C) the
- D) those

RW3-M1-009

Prompt:

The volunteers divided the supplies among _____ before carrying the boxes into the gym.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) they
- B) them
- C) their
- D) themselves

RW3-M1-010

Prompt:

While researching a topic, a student has taken the following notes:

- The axolotl is a salamander native to lakes near Mexico City.
- Unlike many amphibians, axolotls can remain aquatic throughout their lives.
- Axolotls can regrow lost limbs and some damaged tissues.
- Scientists study axolotls to learn more about regeneration.
- Wild axolotl populations have declined because of habitat loss and pollution.

The student wants to emphasize why scientists are interested in axolotls. Which choice most effectively uses relevant information from the notes?

- A) The axolotl is a salamander native to lakes near Mexico City.
- B) Because axolotls can regrow lost limbs and some damaged tissues, scientists study them to learn more about regeneration.
- C) Wild axolotl populations have declined because of habitat loss and pollution.
- D) Unlike many amphibians, axolotls can remain aquatic throughout their lives.

RW3-M1-011

Prompt:

The cookbook includes detailed instructions for beginners. _____ it offers a glossary that explains unfamiliar cooking terms.

Question:

Which choice completes the text with the most logical transition?

- A) Similarly,
- B) Nevertheless,
- C) As a result,
- D) Earlier,

RW3-M1-012

Prompt:

The following text is from a draft of a student's essay.

(1) A seed bank stores seeds from many different plants. (2) Scientists can use seed banks to protect plant varieties that may become rare. (3) Some seed banks keep seeds frozen so they can remain usable for many years. (4) These collections may help farmers and researchers respond to future environmental changes.

Question:

To make the paragraph most logical, sentence 3 should be placed

- A) where it is now.

- B) before sentence 1.
- C) after sentence 4.
- D) between sentence 1 and sentence 2.

RW3-M1-013

Prompt:

Last month, the drama club _____ a short play for students at the elementary school.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) performs
- B) performed
- C) will perform
- D) performing

RW3-M1-014

Prompt:

_____ from recycled plastic, the new benches are lighter than the wooden benches they replaced.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) Made
- B) Making
- C) To make
- D) Make

RW3-M1-015

Prompt:

The class moved its discussion indoors _____ the wind made it difficult to hear outside.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) indoors, the wind
- B) indoors because the wind
- C) indoors; because the wind
- D) indoors, because, the wind

RW3-M1-016

Prompt:

To learn how squirrels store food, researchers placed small cameras near several trees. The cameras recorded where the squirrels buried acorns, allowing the researchers to _____ the animals' caching behavior without disturbing them.

Question:

Which choice completes the text with the most logical and precise word?

- A) observe
- B) decorate
- C) replace
- D) confuse

RW3-M1-017

Prompt:

Community repair cafés invite people to bring broken household items, such as lamps or small appliances, to a shared workspace. Volunteers help owners identify problems and make repairs when possible. These events can reduce waste while also helping people learn basic repair skills.

Question:

Which choice best states the main idea of the text?

- A) Repair cafés can reduce waste and teach useful repair skills.
- B) Repair cafés require people to throw away broken household items.
- C) Volunteers at repair cafés usually repair only bicycles.
- D) Household items are easier to replace than to fix.

RW3-M1-018

Prompt:

Biologists studying monarch butterflies have found that the insects migrate long distances between breeding areas and wintering sites. The butterflies use environmental cues, including the position of the sun, to help guide their journey.

Question:

According to the text, what helps monarch butterflies during migration?

- A) Environmental cues such as the position of the sun
- B) The ability to live entirely underwater
- C) The color of nearby rocks
- D) Sounds made by other insect species

RW3-M1-019

Prompt:

A student is revising the following sentence.

The library created a teen advisory board, and students can use it to suggest programs, recommend books, and plan events.

Question:

Which choice best combines the ideas clearly and concisely?

- A) The library created a teen advisory board through which students can suggest programs, recommend books, and plan events.
- B) The library created a teen advisory board, students can use it to suggest programs, recommend books, and plan events.
- C) The library created a teen advisory board and suggesting programs, recommending books, and planning events.
- D) The library created a teen advisory board because students and programs, books, and events.

RW3-M1-020

Prompt:

While researching a topic, a student has taken the following notes:

- Wilma Mankiller was the first woman elected principal chief of the Cherokee Nation.
- She served as principal chief from 1985 to 1995.
- Mankiller supported community development projects.
- She worked to improve health care, education, and housing.
- She wrote and spoke about leadership and Native sovereignty.

The student wants to introduce Mankiller and one major aspect of her public service. Which choice most effectively uses relevant information from the notes?

- A) Wilma Mankiller, the first woman elected principal chief of the Cherokee Nation, supported projects to improve health care, education, and housing.
- B) Wilma Mankiller served as principal chief from 1985 to 1995, a period of ten years.

- C) Many leaders have written and spoken about leadership and sovereignty.
- D) Community development projects can focus on housing, schools, or medical services.

RW3-M1-021

Prompt:

A student recorded the number of minutes four classmates practiced piano on Saturday.

Student	Minutes practiced
Ava	35
Malik	50
Sofia	45
Ben	30

Question:

Which choice is supported by the data in the table?

- A) Malik practiced for the greatest number of minutes.
- B) Ben practiced for more minutes than Sofia.
- C) Ava and Sofia practiced for the same number of minutes.
- D) No student practiced for more than 45 minutes.

RW3-M1-022

Prompt:

In a paragraph about student newspapers, a writer notes, “At one high school, reporters interviewed cafeteria workers, reviewed a new school policy, and photographed a soccer championship.”

Question:

What is the most likely purpose of the sentence?

- A) To show the range of topics student newspaper reporters can cover
- B) To explain why cafeteria workers usually coach soccer
- C) To argue that student newspapers should avoid school policy
- D) To compare photography with interviewing as career choices

RW3-M1-023

Prompt:

The fossils _____ discovered near the river were carefully wrapped and sent to the university laboratory.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) that were
- B) which,
- C) who were
- D) where

RW3-M1-024

Prompt:

The program teaches participants to set goals, to track progress, and _____ challenges calmly.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) handling
- B) to handle
- C) handled
- D) the handling of

RW3-M1-025

Prompt:

The instructions were too brief, so the teacher added diagrams and examples to make the process more _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) confusing
- B) visible
- C) understandable
- D) distant

RW3-M1-026

Prompt:

A student wants to begin an essay about the value of learning a second language. Which choice would be the most effective opening sentence for the essay?

- A) Learning a second language can help students communicate with more people and understand other cultures.
- B) Spanish, French, and Mandarin are examples of languages that some schools teach.
- C) A language is a system people use to communicate ideas.
- D) My classroom has posters with words in several languages.

RW3-M1-027

Prompt:

The town added brighter crosswalk markings near the middle school. _____ drivers could more easily see where students were likely to cross.

Question:

Which choice completes the text with the most logical transition?

- A) As a result,
- B) For example,
- C) On the other hand,
- D) Previously,

PART B — MODULE 2 QUESTIONS

RW3-M2-001

Prompt:

When composer Tania León blends Afro-Cuban rhythms with techniques from classical music, the result does not fit neatly into a single category. Critics often note that this mixture reflects León's interest in movement across cultures rather than in musical boundaries. Her works therefore _____ easy labels.

Question:

Which choice completes the text with the most logical and precise word?

- A) resist
- B) repeat
- C) require
- D) announce

RW3-M2-002

Prompt:

Researchers who study ancient pollen can learn about past environments. Because different plants produce distinct kinds of pollen, pollen grains preserved in lake sediments may show which plants

once grew nearby. Over time, changes in the pollen found in sediment layers can reveal shifts in climate or land use.

Question:

Which choice best states the main idea of the text?

- A) Ancient pollen preserved in sediments can help researchers reconstruct past environments.
- B) Lake sediments rarely contain plant material that researchers can study.
- C) All plants produce identical pollen grains, making them difficult to distinguish.
- D) Pollen studies show that climate and land use never change over time.

RW3-M2-003

Prompt:

Some theater companies stage plays in the round, with audience members seated on all sides of the performance area. This arrangement can make viewers feel close to the action, but it also limits the use of large background sets because those sets would block sight lines for some audience members.

Question:

Which choice is the best inference from the text?

- A) Staging a play in the round can create intimacy but requires careful set design.
- B) Plays staged in the round are performed without any audience members.
- C) Large background sets improve sight lines in every theater arrangement.
- D) Theater companies use in-the-round staging only for outdoor performances.

RW3-M2-004

Prompt:

A student's draft about oceanographer Sylvia Earle includes the following sentences.

Earle has spent thousands of hours exploring underwater environments. Her long experience below the surface gives unusual authority to her warnings about threats to the ocean.

Question:

What is the main function of the second sentence in the text?

- A) It connects Earle's firsthand experience to the credibility of her environmental warnings.
- B) It explains why Earle stopped exploring underwater environments.
- C) It compares Earle's research methods with those of space scientists.
- D) It lists the specific species Earle observed on each dive.

RW3-M2-005

Prompt:

A researcher recorded the average number of daily visitors to four nature trails before and after new signs were installed.

Trail	Average daily visitors before signs	Average daily visitors after signs
Pine Loop	46	58
Meadow Path	37	42
Ridge Trail	51	49
Creek Walk	28	36

Question:

Which choice best describes the data?

- A) Pine Loop, Meadow Path, and Creek Walk had more visitors after the signs were installed, while Ridge Trail had fewer.

- B) All four trails had fewer visitors after the signs were installed.
- C) Ridge Trail had the greatest increase in visitors after the signs were installed.
- D) Meadow Path and Creek Walk had the same number of visitors after the signs were installed.

RW3-M2-006

Prompt:

Some students prefer handwritten notes because writing can slow them down enough to think carefully about what they record. _____ typed notes can be easier to search and reorganize later.

Question:

Which choice completes the text with the most logical transition?

- A) On the other hand,
- B) For this reason,
- C) In other words,
- D) Similarly,

RW3-M2-007

Prompt:

The essay examines three factors that influence sleep quality _____ light exposure, room temperature, and evening screen use.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) quality
- B) quality:
- C) quality,
- D) quality;

RW3-M2-008

Prompt:

Looking through the telescope on a clear night, _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) the rings of Saturn appeared sharp and bright
- B) Saturn's rings were sharp and bright
- C) we saw Saturn's rings appear sharp and bright
- D) there were sharp and bright rings around Saturn

RW3-M2-009

Prompt:

The principal met with the club president after the assembly, and _____ agreed that the next event needed more student volunteers.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English and avoids ambiguity?

- A) they
- B) the principal
- C) she
- D) it

RW3-M2-010

Prompt:

By the time the hikers reached the overlook, the fog _____ enough for them to see the valley

below.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) lifts
- B) has lifted
- C) had lifted
- D) lifting

RW3-M2-011

Prompt:

While researching a topic, a student has taken the following notes:

- Mathematician Gladys West worked with satellite data.
- She helped develop mathematical models of Earth's shape.
- These models contributed to technology later used in GPS systems.
- West worked at a naval research center beginning in the 1950s.
- She was recognized decades later for her contributions.

The student wants to explain the significance of West's work. Which choice most effectively uses relevant information from the notes?

- A) Gladys West began working at a naval research center in the 1950s and was recognized decades later.
- B) By helping develop mathematical models of Earth's shape, Gladys West contributed to technology later used in GPS systems.
- C) Satellite data can be used for many purposes, including studying Earth from above.
- D) Mathematical models are sometimes created by researchers working in different fields.

RW3-M2-012

Prompt:

A student is revising an essay about vertical farms, indoor farms where crops grow in stacked layers. The student wants to add a sentence that explains a possible advantage of vertical farms. Which choice best accomplishes this goal?

- A) Vertical farms may use less land than traditional farms because crops are grown in stacked layers.
- B) Some vertical farms are located in cities, while others are built near distribution centers.
- C) Farmers have grown crops outdoors for thousands of years.
- D) Vertical farms require lights, shelves, and systems for providing water.

RW3-M2-013

Prompt:

The following text is from a draft of a student's essay.

(1) Some libraries lend objects as well as books. (2) For example, patrons at certain libraries can borrow musical instruments, board games, or sewing machines. (3) These collections may help people try new activities without buying expensive equipment. (4) Library staff usually create rules to make sure borrowed objects are returned safely.

Question:

Where should the following sentence be placed to best support the logical flow of the paragraph?

This service is sometimes called a library of things.

- A) After sentence 1
- B) After sentence 2
- C) After sentence 3
- D) After sentence 4

RW3-M2-014

Prompt:

The journalist's article about the town budget is not _____; it does not argue for one department over another but instead explains where funds are currently allocated.

Question:

Which choice completes the text with the most logical and precise word?

- A) persuasive
- B) readable
- C) recent
- D) public

RW3-M2-015

Prompt:

Researchers studying coral reefs compared two areas after a heat wave. In the area with more herbivorous fish, algae covered less of the reef surface than it did in the area with fewer herbivorous fish. The researchers concluded that herbivorous fish may help reefs recover by limiting algae growth after heat stress.

Question:

Which choice best describes the relationship between the evidence and the researchers' conclusion?

- A) The lower algae cover where herbivorous fish were more common supports the conclusion that these fish may help limit algae growth.
- B) The evidence proves that heat waves never affect reefs with herbivorous fish.
- C) The conclusion rejects the idea that algae can grow on reef surfaces.
- D) The evidence shows that all fish species eat the same amount of algae.

RW3-M2-016

Prompt:

The research article summarizes the survey results, _____ it also explains how the survey questions were developed.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) results, it
- B) results and
- C) results; and
- D) results, and

RW3-M2-017

Prompt:

A botanist tested whether a certain wildflower grew taller in sandy soil or clay soil. She planted equal numbers of seeds in both soil types, kept light and water conditions the same, and measured the plants after eight weeks. The wildflowers in sandy soil were taller on average than those in clay soil.

Question:

Which conclusion is best supported by the text?

- A) Under the conditions tested, the wildflower grew taller in sandy soil than in clay soil.

- B) Clay soil prevents all wildflowers from germinating.
- C) Light and water conditions never affect plant growth.
- D) Sandy soil always contains more nutrients than clay soil.

RW3-M2-018

Prompt:

The paragraph first explains that rooftop gardens can help absorb rainwater. _____ it describes how one apartment building used a rooftop garden to reduce runoff during heavy storms.

Question:

Which choice completes the text with the most logical transition?

- A) Then,
- B) Nevertheless,
- C) In contrast,
- D) Even so,

RW3-M2-019

Prompt:

The collection of essays about local food traditions _____ recipes, interviews, and historical photographs.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) include
- B) includes
- C) including
- D) are including

RW3-M2-020

Prompt:

The _____ wings beat so rapidly that they produce a faint humming sound as the bird hovers near flowers.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) hummingbirds
- B) hummingbird's
- C) hummingbirds'
- D) hummingbirdes'

RW3-M2-021

Prompt:

While researching a topic, a student has taken the following notes:

- The Federal Theatre Project was active during the 1930s.
- It employed actors, directors, stagehands, and playwrights.
- Some productions were original plays about current social issues.
- Other productions brought classic plays to audiences at low cost.
- The project also supported performances in multiple languages.

The student wants to emphasize the range of theatrical work supported by the Federal Theatre Project. Which choice most effectively uses relevant information from the notes?

- A) The Federal Theatre Project was active during the 1930s and employed many theater workers.
- B) The Federal Theatre Project supported a wide range of work, including original plays about

social issues, low-cost productions of classics, and performances in multiple languages.

C) Some theater productions in the 1930s were original plays, while others were based on older works.

D) Actors, directors, stagehands, and playwrights can all contribute to a successful theater production.

RW3-M2-022

Prompt:

A student is revising the following sentence.

The community science fair displayed student projects, and local scientists answered questions from visitors.

The student wants to emphasize that the fair both showcased student work and connected the public with experts. Which choice best revises the sentence to accomplish this goal?

A) The community science fair showcased student projects while giving visitors a chance to ask local scientists questions.

B) Student projects were displayed at the community science fair, and the fair was held in the community.

C) Local scientists answered questions from visitors, which is something scientists sometimes do at events.

D) The community science fair had projects and visitors, and some of the visitors asked questions.

RW3-M2-023

Prompt:

The shop window displayed a row of handmade kites, each one painted with bright patterns. Amal paused in front of them on her way home from school. She had not flown a kite since her family moved from the coast, but the sight of the paper tails trembling in the air made her remember the beach wind.

Question:

Which choice best describes what the text suggests about Amal?

A) Seeing the kites brings back memories of a place where she used to live.

B) She plans to buy every kite displayed in the shop window.

C) She dislikes windy places because they remind her of school.

D) She has never seen a handmade kite before.

RW3-M2-024

Prompt:

The counselor organized the workshop into small-group discussions, _____ quieter students more opportunities to speak.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

A) giving

B) gave

C) gives

D) and giving

RW3-M2-025

Prompt:

Because handwritten census records can be difficult to read, historians often compare several documents to _____ names, dates, and addresses.

Question:

Which choice completes the text with the most logical and precise word?

- A) verify
- B) invent
- C) decorate
- D) delay

RW3-M2-026

Prompt:

The field guide describes three signs of animal activity: tracks in the mud, feathers near the stream, and _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) claw marks on fallen logs
- B) fallen logs had claw marks
- C) claw marks were on fallen logs
- D) marking fallen logs with claws

RW3-M2-027

Prompt:

While researching a topic, a student has taken the following notes:

- Kelp forests grow in cool coastal waters.
- Kelp provides shelter for young fish and invertebrates.
- Sea otters eat sea urchins.
- Sea urchins eat kelp and can damage kelp forests when too numerous.
- By limiting sea urchin populations, sea otters can help kelp forests remain healthy.

The student wants to emphasize how sea otters can indirectly support other marine life. Which choice most effectively uses relevant information from the notes?

- A) Kelp forests grow in cool coastal waters and include many kinds of seaweed.
- B) By eating sea urchins that feed on kelp, sea otters can help protect kelp forests that shelter young fish and invertebrates.
- C) Sea urchins eat kelp, while sea otters are animals that live in coastal waters.
- D) Kelp provides shelter for some marine animals, including young fish and invertebrates.

PART C — MODULE 1 ANSWER KEY + EXPLANATIONS

RW3-M1-001 — Correct: significant — Explanation: The text describes Wu’s experiment as challenging assumptions and influencing later research, so “significant” is the most precise choice.

RW3-M1-002 — Correct: Sound-absorbing panels can help reduce noise in school cafeterias. — Explanation: The passage explains that panels reduce echoes and make noisy cafeterias quieter.

RW3-M1-003 — Correct: Tray 4 had the greatest number of seedlings sprouted. — Explanation: Tray 4 had 20 seedlings sprouted, more than the other trays.

RW3-M1-004 — Correct: Jonah learns that careful observation can change how he draws. — Explanation: Jonah first rushes through drawings but then notices new details after observing carefully.

RW3-M1-005 — Correct: It explains how flaws in old radio recordings can reveal something about how the programs were made. — Explanation: The quoted sentence says imperfections show that early programs were created in real time.

RW3-M1-006 — Correct: In addition, — Explanation: The second sentence adds another festival

activity to the list.

RW3-M1-007 — Correct: has — Explanation: “Each” is singular, so it requires the singular verb “has.”

RW3-M1-008 — Correct: a — Explanation: “Former US poet laureate” begins with a consonant sound, so “a” is correct.

RW3-M1-009 — Correct: themselves — Explanation: The reflexive pronoun “themselves” correctly indicates that the volunteers divided the supplies among their own group.

RW3-M1-010 — Correct: Because axolotls can regrow lost limbs and some damaged tissues, scientists study them to learn more about regeneration. — Explanation: This choice explains the feature that makes axolotls scientifically interesting.

RW3-M1-011 — Correct: Similarly, — Explanation: The glossary is another feature that helps beginners, so “Similarly” is logical.

RW3-M1-012 — Correct: where it is now. — Explanation: Sentence 3 follows naturally after the purpose of seed banks by explaining one method used to preserve seeds.

RW3-M1-013 — Correct: performed — Explanation: “Last month” requires the past-tense verb “performed.”

RW3-M1-014 — Correct: Made — Explanation: “Made from recycled plastic” correctly modifies “the new benches.”

RW3-M1-015 — Correct: indoors because the wind — Explanation: “Because” correctly introduces the reason the discussion was moved indoors.

RW3-M1-016 — Correct: observe — Explanation: The cameras allowed researchers to watch the squirrels’ behavior without disturbing them.

RW3-M1-017 — Correct: Repair cafés can reduce waste and teach useful repair skills. — Explanation: The passage explains that repair cafés help fix items and teach people repair skills.

RW3-M1-018 — Correct: Environmental cues such as the position of the sun — Explanation: The text states that monarch butterflies use environmental cues, including the sun’s position, to guide migration.

RW3-M1-019 — Correct: The library created a teen advisory board through which students can suggest programs, recommend books, and plan events. — Explanation: This revision clearly and concisely explains what students can do through the board.

RW3-M1-020 — Correct: Wilma Mankiller, the first woman elected principal chief of the Cherokee Nation, supported projects to improve health care, education, and housing. — Explanation: This choice introduces Mankiller and identifies a major part of her public service.

RW3-M1-021 — Correct: Malik practiced for the greatest number of minutes. — Explanation: Malik practiced for 50 minutes, more than Ava, Sofia, or Ben.

RW3-M1-022 — Correct: To show the range of topics student newspaper reporters can cover — Explanation: The sentence lists different activities reporters completed, including interviews, policy review, and photography.

RW3-M1-023 — Correct: that were — Explanation: “That were” correctly introduces the clause identifying which fossils were wrapped and sent to the laboratory.

RW3-M1-024 — Correct: to handle — Explanation: The phrase completes the parallel structure: “to set,” “to track,” and “to handle.”

RW3-M1-025 — Correct: understandable — Explanation: Adding diagrams and examples would make the process easier to understand.

RW3-M1-026 — Correct: Learning a second language can help students communicate with more people and understand other cultures. — Explanation: This sentence effectively introduces the essay’s broad focus on the value of learning a second language.

RW3-M1-027 — Correct: As a result, — Explanation: Drivers’ improved ability to see crossing areas is presented as an effect of the brighter markings.

PART D — MODULE 2 ANSWER KEY + EXPLANATIONS

RW3-M2-001 — Correct: resist — Explanation: The text says León’s music does not fit neatly into a single category, so her works “resist” easy labels.

RW3-M2-002 — Correct: Ancient pollen preserved in sediments can help researchers reconstruct past environments. — Explanation: The passage explains that pollen grains in sediment layers reveal past plants and environmental changes.

RW3-M2-003 — Correct: Staging a play in the round can create intimacy but requires careful set design. — Explanation: The text says seating on all sides can make viewers feel close but limits large sets because of sight lines.

RW3-M2-004 — Correct: It connects Earle’s firsthand experience to the credibility of her environmental warnings. — Explanation: The sentence explains that Earle’s underwater experience gives authority to her warnings.

RW3-M2-005 — Correct: Pine Loop, Meadow Path, and Creek Walk had more visitors after the signs were installed, while Ridge Trail had fewer. — Explanation: Visitors increased on Pine Loop, Meadow Path, and Creek Walk, but decreased on Ridge Trail.

RW3-M2-006 — Correct: On the other hand, — Explanation: The sentence contrasts one benefit of handwritten notes with a benefit of typed notes.

RW3-M2-007 — Correct: quality: — Explanation: A colon correctly introduces the list of three factors.

RW3-M2-008 — Correct: we saw Saturn’s rings appear sharp and bright — Explanation: The introductory modifier “Looking through the telescope” must logically describe “we.”

RW3-M2-009 — Correct: the principal — Explanation: Repeating “the principal” avoids ambiguity about whether “they” refers to the principal and club president together.

RW3-M2-010 — Correct: had lifted — Explanation: The past perfect tense shows that the fog lifted before the hikers reached the overlook.

RW3-M2-011 — Correct: By helping develop mathematical models of Earth’s shape, Gladys West contributed to technology later used in GPS systems. — Explanation: This choice explains the significance of West’s work by connecting it to GPS technology.

RW3-M2-012 — Correct: Vertical farms may use less land than traditional farms because crops are grown in stacked layers. — Explanation: This sentence directly explains a possible advantage of vertical farms.

RW3-M2-013 — Correct: After sentence 1 — Explanation: The added sentence names the service introduced in sentence 1 before sentence 2 gives examples of objects people can borrow.

RW3-M2-014 — Correct: persuasive — Explanation: The article explains the allocation of funds rather than arguing for one department, so it is not persuasive.

RW3-M2-015 — Correct: The lower algae cover where herbivorous fish were more common supports the conclusion that these fish may help limit algae growth. — Explanation: The evidence connects more herbivorous fish with less algae cover after heat stress.

RW3-M2-016 — Correct: results, and — Explanation: A comma plus “and” correctly joins two independent clauses.

RW3-M2-017 — Correct: Under the conditions tested, the wildflower grew taller in sandy soil than in clay soil. — Explanation: The botanist controlled light and water, and the sandy-soil plants were taller on average.

RW3-M2-018 — Correct: Then, — Explanation: The paragraph moves from a general explanation to a specific example.

RW3-M2-019 — Correct: includes — Explanation: The singular subject “collection” requires the singular verb “includes.”

RW3-M2-020 — Correct: hummingbird’s — Explanation: The sentence refers to one bird, so the singular possessive “hummingbird’s” is correct.

RW3-M2-021 — Correct: The Federal Theatre Project supported a wide range of work, including original plays about social issues, low-cost productions of classics, and performances in multiple languages. — Explanation: This choice emphasizes multiple types of theatrical work supported by

the project.

RW3-M2-022 — Correct: The community science fair showcased student projects while giving visitors a chance to ask local scientists questions. — Explanation: This revision emphasizes both student work and public access to experts.

RW3-M2-023 — Correct: Seeing the kites brings back memories of a place where she used to live. — Explanation: The kites remind Amal of the beach wind from before her family moved from the coast.

RW3-M2-024 — Correct: giving — Explanation: The participle “giving” correctly shows the result of organizing the workshop into small groups.

RW3-M2-025 — Correct: verify — Explanation: Comparing multiple records helps historians confirm names, dates, and addresses.

RW3-M2-026 — Correct: claw marks on fallen logs — Explanation: This choice keeps the list grammatically parallel: “tracks,” “feathers,” and “claw marks.”

RW3-M2-027 — Correct: By eating sea urchins that feed on kelp, sea otters can help protect kelp forests that shelter young fish and invertebrates. — Explanation: This choice emphasizes the indirect support: otters limit urchins, which helps kelp forests that shelter other marine life.
