

PART A — MODULE 1 QUESTIONS

RW6-M1-001

Prompt:

In the early 1900s, chemist Alice Ball developed a method for preparing chaulmoogra oil so it could be injected and more easily absorbed by the body. At the time, the oil was one of the few treatments used for Hansen’s disease, but earlier forms of it were difficult for patients to take. Ball’s work therefore made an existing treatment more _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) practical
- B) decorative
- C) predictable
- D) temporary

RW6-M1-002

Prompt:

A rain garden is a shallow planted area designed to collect rainwater from roofs, driveways, or sidewalks. As the water slowly soaks into the soil, plants and soil can filter out some pollutants. Rain gardens can also reduce the amount of stormwater flowing into nearby streets and drains.

Question:

Which choice best states the main idea of the text?

- A) Rain gardens can help manage stormwater and filter some pollutants.
- B) Rain gardens are designed mainly to replace all other types of gardens.
- C) Stormwater drains prevent rainwater from reaching streets.
- D) Plants in rain gardens cannot grow unless the soil stays completely dry.

RW6-M1-003

Prompt:

A student recorded the number of visitors to four booths at a school career fair.

Booth | Visitors

Architecture | 28

Health sciences | 35

Journalism | 24

Robotics | 39

Question:

Which choice is supported by the data in the table?

- A) The Robotics booth had the greatest number of visitors.
- B) The Journalism booth had more visitors than the Health sciences booth.
- C) The Architecture and Journalism booths had the same number of visitors.
- D) No booth had more than 35 visitors.

RW6-M1-004

Prompt:

At first, Leo thought the pottery wheel looked easy to control. But when he pressed too hard, the clay tilted and collapsed. His instructor showed him how to steady his hands and use gentle pressure. On his next try, the clay rose smoothly into a small bowl.

Question:

Which choice best describes what happens in the text?

- A) Leo improves after learning to use more careful control.
- B) Leo decides that pottery is too simple to practice.
- C) Leo teaches his instructor how to shape a bowl.
- D) Leo breaks the pottery wheel before he can use it.

RW6-M1-005

Prompt:

In a passage about lighthouses, a writer explains that different lighthouses often flashed in distinct patterns. The writer adds, “These patterns helped sailors identify which lighthouse they were seeing, especially at night or in foggy weather.”

Question:

What is the main function of the quoted sentence?

- A) It explains a practical purpose of different lighthouse flash patterns.
- B) It argues that sailors preferred traveling only during the day.
- C) It describes how lighthouses were built from stone.
- D) It shows that fog made lighthouses unnecessary.

RW6-M1-006

Prompt:

The school’s new courtyard includes benches for reading and tables for group work. _____ it has a small stage that students can use for performances.

Question:

Which choice completes the text with the most logical transition?

- A) In addition,
- B) However,
- C) As a result,
- D) Instead,

RW6-M1-007

Prompt:

The set of instructions for assembling the model _____ printed on the back of the package.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) are
- B) were
- C) is
- D) have been

RW6-M1-008

Prompt:

The story was written by Jhumpa Lahiri, _____ author whose fiction often explores language, family, and identity.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) a
- B) an
- C) the
- D) this

RW6-M1-009

Prompt:

After the lab partners finished the experiment, they cleaned _____ workspace and returned the equipment.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) their
- B) them
- C) they
- D) themselves

RW6-M1-010

Prompt:

While researching a topic, a student has taken the following notes:

- The okapi is a forest-dwelling mammal found in the Democratic Republic of the Congo.
- Although it has striped legs like a zebra, it is more closely related to the giraffe.
- Okapis use long tongues to pull leaves from branches.
- Their dark coats help them blend into shaded forest areas.
- Conservation groups work to protect okapi habitat.

The student wants to emphasize a surprising classification fact about okapis. Which choice most effectively uses relevant information from the notes?

- A) The okapi lives in forests in the Democratic Republic of the Congo.
- B) Although the okapi has striped legs like a zebra, it is more closely related to the giraffe.
- C) Okapis use long tongues to pull leaves from branches in forest habitats.
- D) Conservation groups work to protect the places where okapis live.

RW6-M1-011

Prompt:

The town's new recycling guide explains which materials belong in each bin. _____ it includes pictures of common items to help residents sort waste correctly.

Question:

Which choice completes the text with the most logical transition?

- A) Furthermore,
- B) Nevertheless,
- C) By contrast,
- D) Earlier,

RW6-M1-012

Prompt:

The following text is from a draft of a student's essay.

(1) A community mural can brighten a public space. (2) Artists often invite residents to suggest images or themes for the design. (3) When many people contribute ideas, the finished mural can reflect the neighborhood's identity. (4) The mural may become a place where residents gather or take photographs.

Question:

To make the paragraph most logical, sentence 2 should be placed

- A) where it is now.
- B) before sentence 1.

- C) after sentence 3.
- D) after sentence 4.

RW6-M1-013

Prompt:

Two days ago, the debate club _____ a practice round in the auditorium.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) holds
- B) held
- C) will hold
- D) holding

RW6-M1-014

Prompt:

_____ by a thin layer of wax, the paper resisted water better than untreated paper did.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) Coated
- B) Coating
- C) To coat
- D) Coat

RW6-M1-015

Prompt:

The outdoor concert was delayed _____ the sound crew needed extra time to test the speakers.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) delayed, the sound
- B) delayed because the sound
- C) delayed; because the sound
- D) delayed, because, the sound

RW6-M1-016

Prompt:

To learn which hallway displays attracted the most attention, the art teacher asked students to place small stickers beside their favorite pieces. The teacher then counted the stickers to _____ which displays were most popular.

Question:

Which choice completes the text with the most logical and precise word?

- A) determine
- B) erase
- C) borrow
- D) disguise

RW6-M1-017

Prompt:

Some public libraries offer homework help after school. Students can ask volunteers questions, use library computers, and find books related to their assignments. These programs can support students who may not have quiet study spaces or reliable internet access at home.

Question:

Which choice best states the main idea of the text?

- A) Library homework programs can give students access to academic support and resources.
- B) Public libraries should stop offering books and computers to students.
- C) Students can complete homework only when volunteers do it for them.
- D) Homework help programs are useful only for students who already have reliable internet access.

RW6-M1-018

Prompt:

Scientists studying penguins note that some species huddle closely together during extremely cold weather. By standing in a tight group, the penguins reduce heat loss and help one another stay warm.

Question:

According to the text, why do some penguins huddle together?

- A) To reduce heat loss in cold weather
- B) To make it easier to build nests in trees
- C) To prevent all ice from forming nearby
- D) To help them swim faster underwater

RW6-M1-019

Prompt:

A student is revising the following sentence.

The community center opened a craft room, and visitors can use it to paint, sew, and work on small woodworking projects.

Question:

Which choice best combines the ideas clearly and concisely?

- A) The community center opened a craft room where visitors can paint, sew, and work on small woodworking projects.
- B) The community center opened a craft room, visitors can use it to paint, sew, and work on small woodworking projects.
- C) The community center opened a craft room and painting, sewing, and working on small woodworking projects.
- D) The community center opened a craft room because visitors, painting, sewing, and woodworking projects.

RW6-M1-020

Prompt:

While researching a topic, a student has taken the following notes:

- Jean-Michel Basquiat was an American artist.
- He became known in the 1980s.
- His paintings often included words, symbols, and expressive figures.
- His work explored themes such as identity, power, and history.
- Basquiat's art appears in major museum collections.

The student wants to introduce Basquiat's artistic style and themes. Which choice most effectively uses relevant information from the notes?

- A) Jean-Michel Basquiat, an American artist known in the 1980s, created paintings with words, symbols, and expressive figures that explored identity, power, and history.
- B) Jean-Michel Basquiat became known in the 1980s, and the 1980s included many different

artistic movements.

C) Major museum collections often include paintings by artists from many countries and time periods.

D) Basquiat's paintings used words, and words can appear in many kinds of visual art.

RW6-M1-021

Prompt:

A student recorded the number of pages printed by four classroom printers in one week.

Printer	Pages printed
Printer A	112
Printer B	98
Printer C	125
Printer D	107

Question:

Which choice is supported by the data in the table?

A) Printer C printed the greatest number of pages.

B) Printer B printed more pages than Printer A.

C) Printer D and Printer A printed the same number of pages.

D) No printer printed more than 112 pages.

RW6-M1-022

Prompt:

In a paragraph about neighborhood walking groups, a writer states, "Participants planned routes, reminded one another about meeting times, and shared tips about safe crossings."

Question:

What is the most likely purpose of the sentence?

A) To give examples of ways participants helped organize and support the walking group

B) To explain why walking groups should avoid using sidewalks

C) To argue that safe crossings are unrelated to neighborhood planning

D) To compare walking groups with professional athletic teams

RW6-M1-023

Prompt:

The lanterns _____ hung above the plaza were lit just before sunset.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

A) that were

B) who were

C) where

D) which,

RW6-M1-024

Prompt:

The training session teaches volunteers to greet visitors, to answer basic questions, and _____ directions clearly.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

A) giving

B) to give

- C) gave
- D) the giving of

RW6-M1-025

Prompt:

The first draft of the flyer did not say where the event would happen, so Maya added the street address to make the announcement more _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) complete
- B) fragile
- C) crowded
- D) distant

RW6-M1-026

Prompt:

A student wants to begin an essay about the importance of school nurses. Which choice would be the most effective opening sentence for the essay?

- A) School nurses help support student health by treating minor injuries, monitoring illnesses, and providing health guidance.
- B) Some schools have offices near the main entrance, while others have offices beside the gym.
- C) A nurse is a person who may work in a hospital, clinic, or school.
- D) My school nurse has a desk, a chair, and a cabinet for supplies.

RW6-M1-027

Prompt:

The city added countdown signals at busy crosswalks. _____ pedestrians could better judge how much time they had to finish crossing.

Question:

Which choice completes the text with the most logical transition?

- A) As a result,
- B) For example,
- C) In contrast,
- D) Meanwhile,

PART B — MODULE 2 QUESTIONS

RW6-M2-001

Prompt:

In many of her quilts, artist Bisa Butler uses vivid patterned fabrics rather than paint to create portraits. The fabrics are not merely background decoration; their colors and patterns help communicate mood, history, and personality. Butler's work thus _____ traditional expectations about what portrait materials can be.

Question:

Which choice completes the text with the most logical and precise word?

- A) expands
- B) repeats
- C) conceals
- D) delays

RW6-M2-002

Prompt:

Researchers who study ice cores can learn about past atmospheres. As snow falls and becomes compressed into ice, tiny bubbles of air may become trapped inside. By analyzing gases in these bubbles, scientists can estimate the composition of the atmosphere at the time the snow originally fell.

Question:

Which choice best states the main idea of the text?

- A) Ice cores can preserve air bubbles that help scientists study past atmospheric conditions.
- B) Ice cores are useful only because they show the current temperature of the air.
- C) Snow that becomes ice always loses all traces of the atmosphere around it.
- D) Scientists analyze ice cores mainly to determine the age of modern buildings.

RW6-M2-003

Prompt:

Some schools have replaced traditional bells with softer musical tones between classes. The tones can make transitions feel less stressful, but they must still be loud enough to be heard throughout the building. If the tones are too quiet, students may miss the signal to move to their next class.

Question:

Which choice is the best inference from the text?

- A) Softer transition sounds can be helpful, but they need to remain clearly audible.
- B) Musical tones prevent students from moving between classes.
- C) Traditional bells are always quieter than musical tones.
- D) Schools use musical tones only when students no longer follow schedules.

RW6-M2-004

Prompt:

A student's draft about writer N. K. Jemisin includes the following sentences.

Jemisin's novels often build imagined worlds with their own histories, conflicts, and social systems. These invented settings allow her to examine questions about power and belonging without limiting the story to a single real-world place.

Question:

What is the main function of the second sentence in the text?

- A) It explains how Jemisin's world-building supports broader social themes.
- B) It argues that Jemisin's novels avoid questions about society.
- C) It lists every real-world place that appears in Jemisin's fiction.
- D) It suggests that imagined settings cannot have histories.

RW6-M2-005

Prompt:

A researcher compared the average number of minutes students spent on four parts of a science review website before and after a redesign.

Website section | Before redesign | After redesign

Vocabulary practice | 14 | 18

Lab simulations | 21 | 27

Video explanations | 32 | 26

Practice quizzes | 19 | 24

Question:

Which choice best describes the data?

- A) Students spent more time on vocabulary practice, lab simulations, and practice quizzes after the redesign, but less time on video explanations.
- B) Students spent less time on all four website sections after the redesign.
- C) Video explanations had the greatest increase after the redesign.
- D) Vocabulary practice and lab simulations had the same time after the redesign.

RW6-M2-006

Prompt:

Some historians rely on official records because such documents can provide dates, names, and legal details. _____ personal diaries may reveal feelings and daily routines that official records leave out.

Question:

Which choice completes the text with the most logical transition?

- A) On the other hand,
- B) As a result,
- C) In other words,
- D) For instance,

RW6-M2-007

Prompt:

The guide recommends three ways to protect a bicycle from theft _____ using a strong lock, parking in visible areas, and registering the serial number.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) theft
- B) theft:
- C) theft,
- D) theft;

RW6-M2-008

Prompt:

Crossing the suspension bridge during the field trip, _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) the river far below looked narrow and bright
- B) our class could see the river shining far below
- C) there was a narrow, bright river far below
- D) the view of the river seemed bright and narrow

RW6-M2-009

Prompt:

The researcher spoke with the lab assistant before the demonstration, and _____ agreed that the equipment should be checked once more.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English and avoids ambiguity?

- A) they
- B) the researcher

- C) she
- D) it

RW6-M2-010

Prompt:

By the time the art contest opened, the judges _____ the scoring guidelines.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) approve
- B) have approved
- C) had approved
- D) approving

RW6-M2-011

Prompt:

While researching a topic, a student has taken the following notes:

- Temple Grandin is an animal behavior scientist and author.
- She has studied how livestock respond to their surroundings.
- Grandin designed livestock handling systems intended to reduce stress in animals.
- Her designs use curved pathways and visual barriers.
- Her work has influenced practices in the livestock industry.

The student wants to explain how Grandin applied her research to practical design. Which choice most effectively uses relevant information from the notes?

- A) Temple Grandin is an animal behavior scientist and author who has written about livestock.
- B) Grandin applied her knowledge of animal behavior by designing livestock handling systems with features such as curved pathways and visual barriers to reduce stress.
- C) Livestock can respond to their surroundings in ways that scientists may study.
- D) The livestock industry includes farms, transportation systems, and processing facilities.

RW6-M2-012

Prompt:

A student is revising an essay about using native plants in school landscaping. The student wants to add a sentence that explains a possible advantage of native plants. Which choice best accomplishes this goal?

- A) Native plants may require less watering than some nonnative plants because they are adapted to local conditions.
- B) Landscaping can include grass, trees, flowers, paths, and seating areas.
- C) Some schools hire workers to trim bushes and maintain outdoor spaces.
- D) Nonnative plants are plants that originally came from a different region.

RW6-M2-013

Prompt:

The following text is from a draft of a student's essay.

(1) Some museums create touchable models of fragile artifacts. (2) Visitors can handle these models to understand the shape or texture of an object without risking damage to the original. (3) This approach can make exhibits more accessible to visitors with visual impairments. (4) It can also help all visitors learn through more than sight alone.

Question:

Where should the following sentence be placed to best support the logical flow of the paragraph?

The original artifacts may be too delicate to touch directly.

- A) After sentence 1
- B) After sentence 2
- C) After sentence 3
- D) After sentence 4

RW6-M2-014

Prompt:

The scientist's explanation of the discovery was not _____; she avoided technical terms and used a simple comparison that helped the audience understand the main idea.

Question:

Which choice completes the text with the most logical and precise word?

- A) obscure
- B) public
- C) recent
- D) brief

RW6-M2-015

Prompt:

Researchers studying a lake found that areas with more aquatic plants had higher numbers of young fish than areas with few plants. Because young fish can hide among plant stems, the researchers concluded that preserving aquatic vegetation may help support fish populations.

Question:

Which choice best describes the relationship between the evidence and the researchers' conclusion?

- A) The higher number of young fish in plant-rich areas supports the conclusion that aquatic vegetation may provide helpful habitat.
- B) The evidence proves that aquatic plants prevent all predators from entering lakes.
- C) The conclusion rejects the idea that young fish use shelter.
- D) The evidence shows that fish populations are unrelated to lake habitats.

RW6-M2-016

Prompt:

The pamphlet explains the museum's membership levels, _____ it also describes discounts available to members.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) levels, it
- B) levels and
- C) levels; and
- D) levels, and

RW6-M2-017

Prompt:

A food scientist tested two packaging materials to see which kept crackers crisp longer. She placed equal amounts of crackers in Package A and Package B, stored both packages in the same room, and measured crispness after one week. Crackers in Package A remained crisper than those in Package B.

Question:

Which conclusion is best supported by the text?

- A) Under the conditions tested, Package A kept crackers crisp longer than Package B did.
- B) Package B prevents all foods from becoming stale.
- C) Crackers cannot be tested for crispness after storage.
- D) Room conditions were different for the two packages.

RW6-M2-018

Prompt:

The article first describes how community colleges offer career-focused certificate programs.

_____ it explains how one student used a certificate program to qualify for a medical assistant position.

Question:

Which choice completes the text with the most logical transition?

- A) Then,
- B) Even so,
- C) In contrast,
- D) Nevertheless,

RW6-M2-019

Prompt:

The stack of folders on the front desk _____ permission slips, attendance sheets, and bus schedules.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) contain
- B) contains
- C) containing
- D) are containing

RW6-M2-020

Prompt:

The _____ beak curves downward, allowing the bird to reach insects hidden under loose bark.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) woodpecker's
- B) woodpeckers
- C) woodpeckers'
- D) woodpeckeres'

RW6-M2-021

Prompt:

While researching a topic, a student has taken the following notes:

- The Green Book was a travel guide published for Black travelers during the era of segregation in the United States.
- It listed hotels, restaurants, gas stations, and other businesses that served Black customers.
- Victor Hugo Green first published the guide in the 1930s.
- The guide helped travelers plan safer routes.
- Later editions expanded to include locations across much of the United States and beyond.

The student wants to explain the practical purpose of the Green Book. Which choice most effectively uses relevant information from the notes?

- A) First published by Victor Hugo Green in the 1930s, the Green Book helped Black travelers plan safer routes by listing businesses that served them.
- B) The Green Book was published in several editions and eventually included many locations.
- C) Travel guides can list hotels, restaurants, gas stations, and other services.
- D) Victor Hugo Green first published a travel guide in the 1930s.

RW6-M2-022

Prompt:

A student is revising the following sentence.

The school's outdoor gear exchange lets families donate outgrown coats, and other students can take coats they need.

The student wants to emphasize that the exchange both reduces waste and helps students obtain needed clothing. Which choice best revises the sentence to accomplish this goal?

- A) By collecting outgrown coats for reuse, the school's outdoor gear exchange reduces waste while helping students get clothing they need.
- B) The school's outdoor gear exchange has coats, and some coats are outgrown by families.
- C) Families can donate coats to the outdoor gear exchange, which is part of the school.
- D) Students need coats in cold weather, and some families have coats at home.

RW6-M2-023

Prompt:

Mina opened the box of old postcards expecting only faded pictures of places she did not recognize. Instead, she found notes written in her grandmother's careful script, each one describing a meal, a train ride, or a rainy afternoon. The postcards suddenly seemed less like souvenirs than pieces of a voice she had not heard in years.

Question:

Which choice best describes what the text suggests about Mina?

- A) She finds an unexpected personal connection in the postcards.
- B) She decides that the postcards are too damaged to read.
- C) She realizes that her grandmother never enjoyed traveling.
- D) She plans to replace the postcards with newer photographs.

RW6-M2-024

Prompt:

The teacher moved the discussion outside under the trees, _____ students a quieter place to talk in small groups.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) giving
- B) gave
- C) gives
- D) and giving

RW6-M2-025

Prompt:

Because the two witnesses described the same event differently, the journalist reviewed security footage to _____ the timeline.

Question:

Which choice completes the text with the most logical and precise word?

- A) clarify
- B) decorate
- C) postpone
- D) imitate

RW6-M2-026

Prompt:

The handbook outlines three steps for submitting a club budget: estimating expenses, listing possible sources of funding, and _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) explaining how the money will be used
- B) the money will be used in an explanation
- C) to explain how the money will be used
- D) explained the use of the money

RW6-M2-027

Prompt:

While researching a topic, a student has taken the following notes:

- Earthworms move through soil by creating small tunnels.
- These tunnels can allow air and water to move through the soil more easily.
- Earthworms break down dead plant material.
- Their waste can add nutrients to soil.
- Gardeners often consider earthworms a sign of healthy soil.

The student wants to emphasize two ways earthworms can improve soil. Which choice most effectively uses relevant information from the notes?

- A) Earthworms are often noticed by gardeners, especially after rain.
- B) Earthworms can improve soil by creating tunnels that help air and water move through it and by adding nutrients through their waste.
- C) Dead plant material is found in many soils and can be broken down over time.
- D) Earthworms move through soil by making tunnels that are usually small.

PART C — MODULE 1 ANSWER KEY + EXPLANATIONS

RW6-M1-001 — Correct: practical — Explanation: Ball’s method made a difficult treatment easier to use and absorb, so “practical” is the most precise choice.

RW6-M1-002 — Correct: Rain gardens can help manage stormwater and filter some pollutants. — Explanation: The passage explains that rain gardens collect runoff, filter some pollutants, and reduce water flowing into drains.

RW6-M1-003 — Correct: The Robotics booth had the greatest number of visitors. — Explanation: The Robotics booth had 39 visitors, more than the other booths.

RW6-M1-004 — Correct: Leo improves after learning to use more careful control. — Explanation: Leo’s first attempt collapses, but after instruction, he shapes the clay smoothly.

RW6-M1-005 — Correct: It explains a practical purpose of different lighthouse flash patterns. — Explanation: The quoted sentence explains that different flash patterns helped sailors identify specific lighthouses.

RW6-M1-006 — Correct: In addition, — Explanation: The second sentence adds another feature of

the courtyard.

RW6-M1-007 — Correct: is — Explanation: The singular subject “set” requires the singular verb “is.”

RW6-M1-008 — Correct: an — Explanation: “Author” begins with a vowel sound, so “an” is correct.

RW6-M1-009 — Correct: their — Explanation: The possessive pronoun “their” correctly refers to the lab partners’ workspace.

RW6-M1-010 — Correct: Although the okapi has striped legs like a zebra, it is more closely related to the giraffe. — Explanation: This choice emphasizes the surprising fact that the okapi looks somewhat zebra-like but is related to the giraffe.

RW6-M1-011 — Correct: Furthermore, — Explanation: The second sentence adds another helpful feature of the recycling guide.

RW6-M1-012 — Correct: where it is now. — Explanation: Sentence 2 logically follows the general statement about a mural by explaining how residents can help shape its design.

RW6-M1-013 — Correct: held — Explanation: “Two days ago” requires the past-tense verb “held.”

RW6-M1-014 — Correct: Coated — Explanation: “Coated by a thin layer of wax” correctly modifies “the paper.”

RW6-M1-015 — Correct: delayed because the sound — Explanation: “Because” correctly introduces the reason the concert was delayed.

RW6-M1-016 — Correct: determine — Explanation: Counting stickers helps the teacher find out which displays were most popular.

RW6-M1-017 — Correct: Library homework programs can give students access to academic support and resources. — Explanation: The passage explains that students can get help, use computers, and access books through these programs.

RW6-M1-018 — Correct: To reduce heat loss in cold weather — Explanation: The text says huddling reduces heat loss and helps penguins stay warm.

RW6-M1-019 — Correct: The community center opened a craft room where visitors can paint, sew, and work on small woodworking projects. — Explanation: This choice combines the ideas clearly and avoids a comma splice.

RW6-M1-020 — Correct: Jean-Michel Basquiat, an American artist known in the 1980s, created paintings with words, symbols, and expressive figures that explored identity, power, and history. — Explanation: This choice introduces Basquiat’s style and the themes in his work.

RW6-M1-021 — Correct: Printer C printed the greatest number of pages. — Explanation: Printer C printed 125 pages, more than the other printers.

RW6-M1-022 — Correct: To give examples of ways participants helped organize and support the walking group — Explanation: The sentence lists specific actions participants took to support the group.

RW6-M1-023 — Correct: that were — Explanation: “That were” correctly introduces the clause identifying which lanterns were lit.

RW6-M1-024 — Correct: to give — Explanation: The phrase completes the parallel structure: “to greet,” “to answer,” and “to give.”

RW6-M1-025 — Correct: complete — Explanation: Adding the street address supplies missing information, making the announcement more complete.

RW6-M1-026 — Correct: School nurses help support student health by treating minor injuries, monitoring illnesses, and providing health guidance. — Explanation: This sentence clearly introduces the essay’s focus on the importance of school nurses.

RW6-M1-027 — Correct: As a result, — Explanation: Pedestrians’ improved ability to judge crossing time is presented as an effect of adding countdown signals.

PART D — MODULE 2 ANSWER KEY + EXPLANATIONS

RW6-M2-001 — Correct: expands — Explanation: Butler’s use of patterned fabrics in portraits broadens what portrait materials can be, so “expands” is most precise.

RW6-M2-002 — Correct: Ice cores can preserve air bubbles that help scientists study past atmospheric conditions. — Explanation: The passage explains that trapped air bubbles in ice cores reveal the composition of past atmospheres.

RW6-M2-003 — Correct: Softer transition sounds can be helpful, but they need to remain clearly audible. — Explanation: The text says softer tones can reduce stress but must be loud enough for students to hear.

RW6-M2-004 — Correct: It explains how Jemisin’s world-building supports broader social themes. — Explanation: The second sentence explains that invented settings allow Jemisin to explore power and belonging.

RW6-M2-005 — Correct: Students spent more time on vocabulary practice, lab simulations, and practice quizzes after the redesign, but less time on video explanations. — Explanation: Time increased in three sections and decreased for video explanations from 32 to 26 minutes.

RW6-M2-006 — Correct: On the other hand, — Explanation: The sentence contrasts the value of official records with the different value of personal diaries.

RW6-M2-007 — Correct: theft: — Explanation: A colon correctly introduces the list of three ways to protect a bicycle.

RW6-M2-008 — Correct: our class could see the river shining far below — Explanation: The introductory modifier “Crossing the suspension bridge” must logically describe “our class.”

RW6-M2-009 — Correct: the researcher — Explanation: Repeating “the researcher” avoids ambiguity about whether “they” refers to the researcher and assistant together.

RW6-M2-010 — Correct: had approved — Explanation: The past perfect tense shows that the judges approved the guidelines before the contest opened.

RW6-M2-011 — Correct: Grandin applied her knowledge of animal behavior by designing livestock handling systems with features such as curved pathways and visual barriers to reduce stress. — Explanation: This choice connects Grandin’s research on animal behavior to specific design features and their purpose.

RW6-M2-012 — Correct: Native plants may require less watering than some nonnative plants because they are adapted to local conditions. — Explanation: This sentence directly explains a possible advantage of using native plants in landscaping.

RW6-M2-013 — Correct: After sentence 1 — Explanation: The added sentence explains why touchable models may be needed before sentence 2 describes how visitors use them.

RW6-M2-014 — Correct: obscure — Explanation: The explanation used simple language and a comparison, so it was not obscure.

RW6-M2-015 — Correct: The higher number of young fish in plant-rich areas supports the conclusion that aquatic vegetation may provide helpful habitat. — Explanation: The evidence links more aquatic plants with more young fish and supports the idea that the plants provide shelter.

RW6-M2-016 — Correct: levels, and — Explanation: A comma plus “and” correctly joins two independent clauses.

RW6-M2-017 — Correct: Under the conditions tested, Package A kept crackers crisp longer than Package B did. — Explanation: Crackers in Package A remained crisper after one week under the same storage conditions.

RW6-M2-018 — Correct: Then, — Explanation: The paragraph moves from a general description of certificate programs to a specific example of one student using such a program.

RW6-M2-019 — Correct: contains — Explanation: The singular subject “stack” requires the singular verb “contains.”

RW6-M2-020 — Correct: woodpecker’s — Explanation: The sentence refers to one woodpecker, so the singular possessive “woodpecker’s” is correct.

RW6-M2-021 — Correct: First published by Victor Hugo Green in the 1930s, the Green Book helped Black travelers plan safer routes by listing businesses that served them. — Explanation: This

choice explains the guide's practical purpose by connecting its listings to safer travel planning.

RW6-M2-022 — Correct: By collecting outgrown coats for reuse, the school's outdoor gear exchange reduces waste while helping students get clothing they need. — Explanation: This revision emphasizes both reduced waste and access to needed clothing.

RW6-M2-023 — Correct: She finds an unexpected personal connection in the postcards. — Explanation: The postcards first seem like unfamiliar souvenirs, but the notes in her grandmother's handwriting make them feel like part of her grandmother's voice.

RW6-M2-024 — Correct: giving — Explanation: The participle "giving" correctly shows the result of moving the discussion outside.

RW6-M2-025 — Correct: clarify — Explanation: Reviewing footage would help make the timeline clearer when witness accounts differ.

RW6-M2-026 — Correct: explaining how the money will be used — Explanation: This choice keeps the list grammatically parallel: "estimating," "listing," and "explaining."

RW6-M2-027 — Correct: Earthworms can improve soil by creating tunnels that help air and water move through it and by adding nutrients through their waste. — Explanation: This choice emphasizes two ways earthworms improve soil: tunneling and adding nutrients.
