

PART A — MODULE 1 QUESTIONS

RW7-M1-001

Prompt:

In 1856, scientist Eunice Newton Foote conducted experiments showing that carbon dioxide could trap heat more effectively than ordinary air. Although her work received limited attention at the time, later scholars have recognized it as an early contribution to climate science. Foote's experiment is now often described as _____ because it anticipated questions scientists continue to study today.

Question:

Which choice completes the text with the most logical and precise word?

- A) careless
- B) pioneering
- C) unrelated
- D) temporary

RW7-M1-002

Prompt:

Some plants rely on ants to spread their seeds. These plants produce seeds with small food-rich parts that ants carry back to their nests. After eating the food-rich parts, the ants leave the seeds underground, where the seeds may be protected until they sprout.

Question:

Which choice best states the main idea of the text?

- A) Some ants help plants reproduce by carrying and burying seeds.
- B) Ants prevent all plant seeds from growing underground.
- C) Plants that rely on ants do not produce seeds with food-rich parts.
- D) Seeds can sprout only after ants remove them from the soil.

RW7-M1-003

Prompt:

A student recorded the number of students who attended four lunchtime workshops.

Workshop | Students attended

Study skills | 26

Healthy snacks | 18

College planning | 33

Public speaking | 29

Question:

Which choice is supported by the data in the table?

- A) The College planning workshop had the greatest attendance.
- B) The Healthy snacks workshop had more students than the Public speaking workshop.
- C) The Study skills and Public speaking workshops had the same attendance.
- D) No workshop had more than 29 students attend.

RW7-M1-004

Prompt:

Rosa wanted her first printmaking project to show a perfect row of trees. When the ink spread unevenly, she almost threw the paper away. Her teacher suggested looking at the print again. Rosa noticed that the uneven ink made the trees seem to move in the wind, so she decided to keep the image.

Question:

Which choice best describes what happens in the text?

- A) Rosa learns to see value in an unexpected result.
- B) Rosa stops working on printmaking because she dislikes ink.
- C) Rosa proves that careful planning always prevents mistakes.
- D) Rosa teaches her teacher how to print a row of trees.

RW7-M1-005

Prompt:

In a passage about medieval town bells, a historian explains that bells were rung for many reasons, including fires, market openings, and curfews. The historian adds, “Because many residents could not read posted announcements, the sound of a bell could quickly spread important information.”

Question:

What is the main function of the quoted sentence?

- A) It explains why bells were an effective communication tool.
- B) It argues that medieval towns did not have markets.
- C) It describes how bells were made from metal.
- D) It shows that posted announcements were always louder than bells.

RW7-M1-006

Prompt:

The school’s media center now offers printed books, e-books, and audiobooks. _____ students can borrow portable chargers for use during the school day.

Question:

Which choice completes the text with the most logical transition?

- A) In addition,
- B) However,
- C) As a result,
- D) Instead,

RW7-M1-007

Prompt:

The pair of murals in the hallway _____ scenes from the town’s early history.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) show
- B) showing
- C) shows
- D) have shown

RW7-M1-008

Prompt:

The play’s main character is Elena, _____ young inventor who builds a machine from old bicycle parts.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) a
- B) an
- C) the
- D) those

RW7-M1-009

Prompt:

The committee finished its report and posted _____ on the school website.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) it
- B) them
- C) they
- D) themselves

RW7-M1-010

Prompt:

While researching a topic, a student has taken the following notes:

- Ellen Swallow Richards was a chemist.
- She was the first woman admitted to the Massachusetts Institute of Technology.
- Richards studied water quality and sanitation.
- She helped develop the field of home economics.
- Her work connected science to everyday health and living conditions.

The student wants to introduce Richards and the practical focus of her scientific work. Which choice most effectively uses relevant information from the notes?

- A) Ellen Swallow Richards, a chemist who studied water quality and sanitation, connected science to everyday health and living conditions.
- B) Ellen Swallow Richards was admitted to the Massachusetts Institute of Technology, which is a university.
- C) Home economics developed over time and included many different topics.
- D) Water quality and sanitation are subjects that many scientists have studied.

RW7-M1-011

Prompt:

The city's new art walk brings more visitors to local galleries. _____ some residents worry that crowded sidewalks will make the neighborhood less quiet on weekends.

Question:

Which choice completes the text with the most logical transition?

- A) However,
- B) Similarly,
- C) For example,
- D) Therefore,

RW7-M1-012

Prompt:

The following text is from a draft of a student's essay.

(1) Nutrition labels give information about packaged foods. (2) They list details such as serving size, calories, and certain nutrients. (3) Learning how to read these labels can help shoppers compare products. (4) For example, a shopper might use labels to choose a cereal with less added sugar.

Question:

To make the paragraph most logical, sentence 4 should be placed

- A) where it is now.
- B) before sentence 1.
- C) between sentence 1 and sentence 2.
- D) between sentence 2 and sentence 3.

RW7-M1-013

Prompt:

Next Friday, the astronomy club _____ a viewing night on the football field.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) hosts
- B) hosted
- C) will host
- D) hosting

RW7-M1-014

Prompt:

_____ from thin strips of wood, the model airplane was light enough to hang from the ceiling.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) Built
- B) Building
- C) To build
- D) Build

RW7-M1-015

Prompt:

The outdoor lunch tables were moved inside _____ the forecast called for heavy rain.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) inside, the forecast
- B) inside because the forecast
- C) inside; because the forecast
- D) inside, because, the forecast

RW7-M1-016

Prompt:

To understand which topics students wanted to learn more about, the teacher reviewed their anonymous survey responses. She hoped the responses would _____ the class's interests before she planned the next unit.

Question:

Which choice completes the text with the most logical and precise word?

- A) reveal
- B) borrow
- C) interrupt
- D) decorate

RW7-M1-017

Prompt:

Many communities hold clothing swaps, events where people bring garments they no longer wear and exchange them for other items. These swaps can help people refresh their wardrobes without

buying new clothes, and they can keep usable clothing out of the trash.

Question:

Which choice best states the main idea of the text?

- A) Clothing swaps can reduce waste and give people access to different clothes.
- B) Clothing swaps require people to throw away garments they no longer wear.
- C) Communities hold clothing swaps only when stores are closed.
- D) Buying new clothing is the only way to refresh a wardrobe.

RW7-M1-018

Prompt:

Marine scientists studying sea stars note that some species can regrow lost arms. This ability can help a sea star survive after an attack by a predator.

Question:

According to the text, how can regrowing lost arms help some sea stars?

- A) It can help them survive after being attacked.
- B) It allows them to live without ocean water.
- C) It prevents predators from living near the shore.
- D) It makes them grow faster than all other marine animals.

RW7-M1-019

Prompt:

A student is revising the following sentence.

The school created a digital suggestion box, and students can use it to propose activities, report problems, and share ideas.

Question:

Which choice best combines the ideas clearly and concisely?

- A) The school created a digital suggestion box that students can use to propose activities, report problems, and share ideas.
- B) The school created a digital suggestion box, students can use it to propose activities, report problems, and share ideas.
- C) The school created a digital suggestion box and proposing activities, reporting problems, and sharing ideas.
- D) The school created a digital suggestion box because students, activities, problems, and ideas.

RW7-M1-020

Prompt:

While researching a topic, a student has taken the following notes:

- Carlos Juan Finlay was a Cuban physician.
- He proposed that mosquitoes could spread yellow fever.
- His idea was controversial when he first presented it.
- Later research supported the mosquito transmission theory.
- Understanding yellow fever transmission helped public health workers reduce the disease's spread.

The student wants to explain the importance of Finlay's idea. Which choice most effectively uses relevant information from the notes?

- A) Carlos Juan Finlay proposed that mosquitoes could spread yellow fever, an idea later supported by research and important to public health.

- B) Carlos Juan Finlay was a Cuban physician, and physicians often study diseases.
- C) Yellow fever was one of several diseases that concerned public health workers.
- D) Finlay's idea was controversial when he first presented it to other people.

RW7-M1-021

Prompt:

A student recorded the number of canned goods collected by four homerooms.

Homeroom	Cans collected
Room 101	54
Room 204	61
Room 318	48
Room 422	57

Question:

Which choice is supported by the data in the table?

- A) Room 204 collected the greatest number of cans.
- B) Room 318 collected more cans than Room 101.
- C) Room 101 and Room 422 collected the same number of cans.
- D) No homeroom collected more than 57 cans.

RW7-M1-022

Prompt:

In a paragraph about student theater crews, a writer states, "Crew members adjusted lights, painted scenery, organized props, and checked microphones before the performance."

Question:

What is the most likely purpose of the sentence?

- A) To give examples of behind-the-scenes work done by student theater crews
- B) To explain why student actors should never use microphones
- C) To argue that scenery is more important than lighting in every play
- D) To compare theater crews with sports teams

RW7-M1-023

Prompt:

The sculpture _____ stands in the center of the plaza was created by a local artist.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) that
- B) who
- C) where
- D) when

RW7-M1-024

Prompt:

The class project asks students to research a topic, to design a display, and _____ their findings to visitors.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) presenting
- B) to present

- C) presented
- D) the presentation of

RW7-M1-025

Prompt:

The first version of the schedule listed the workshop titles but not the room numbers, so the organizer added room information to make the schedule more _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) useful
- B) fragile
- C) crowded
- D) imaginary

RW7-M1-026

Prompt:

A student wants to begin an essay about the advantages of learning basic first aid. Which choice would be the most effective opening sentence for the essay?

- A) Learning basic first aid can help students respond calmly and safely to minor emergencies.
- B) Some first-aid kits are red, while others are white or clear.
- C) A bandage is one item that may be found in a first-aid kit.
- D) My classroom has a poster about emergency exits.

RW7-M1-027

Prompt:

The museum added large-print labels beside several displays. _____ visitors who found the smaller labels difficult to read could better understand the exhibits.

Question:

Which choice completes the text with the most logical transition?

- A) As a result,
- B) For example,
- C) Nevertheless,
- D) In the meantime,

PART B — MODULE 2 QUESTIONS

RW7-M2-001

Prompt:

Poet Joy Harjo's work often joins personal memory with tribal history, music, and observations of the natural world. These elements do not remain separate in her poems; rather, they interact to create layered reflections on identity and place. Harjo's poetry therefore _____ simple separation between personal experience and collective history.

Question:

Which choice completes the text with the most logical and precise word?

- A) resists
- B) predicts
- C) repeats
- D) delays

RW7-M2-002

Prompt:

Some archaeologists study tiny scratches on ancient stone tools. The direction and depth of these marks can suggest whether a tool was used to cut meat, scrape hides, or work with plant fibers. Although the tools may look similar to the naked eye, microscopic wear patterns can reveal differences in how people used them.

Question:

Which choice best states the main idea of the text?

- A) Microscopic wear on stone tools can help archaeologists understand how the tools were used.
- B) Ancient stone tools are useful to archaeologists only when they have no scratches.
- C) All ancient stone tools were used for the same purpose.
- D) Scratches on stone tools prevent researchers from learning about past human behavior.

RW7-M2-003

Prompt:

Some schools use peer note-sharing systems, in which students upload class notes to a shared folder. These systems can help absent students catch up, but they work best when contributors write clearly and include accurate information. Poorly organized notes may confuse readers instead of helping them.

Question:

Which choice is the best inference from the text?

- A) Peer note-sharing can be useful, but the quality of the shared notes matters.
- B) Shared notes are helpful only when students never miss class.
- C) Uploading notes always makes them more accurate.
- D) Poorly organized notes are easier to understand than clear notes.

RW7-M2-004

Prompt:

A student's draft about architect Lina Bo Bardi includes the following sentences.

Bo Bardi designed buildings that often welcomed public gathering rather than separating art from everyday life. Her museum and cultural center designs suggest that architecture can shape not only how a building looks but also how people interact within it.

Question:

What is the main function of the second sentence in the text?

- A) It explains the broader social purpose suggested by Bo Bardi's designs.
- B) It lists the construction materials used in all of Bo Bardi's buildings.
- C) It argues that Bo Bardi avoided designing public spaces.
- D) It shows that architecture affects appearance but not behavior.

RW7-M2-005

Prompt:

A researcher compared the average number of minutes students spent using four areas of a newly renovated school library before and after the renovation.

Library area | Before renovation | After renovation

Quiet reading area | 16 | 24

Group tables | 22 | 31

Computer stations | 28 | 25

Makerspace corner | 11 | 19

Question:

Which choice best describes the data?

- A) Students spent more time in the quiet reading area, group tables, and makerspace corner after the renovation, but less time at computer stations.
- B) Students spent less time in all four areas after the renovation.
- C) Computer stations had the greatest increase after the renovation.
- D) Quiet reading area and makerspace corner had the same time after the renovation.

RW7-M2-006

Prompt:

Historical novels can make past events feel immediate by following imagined characters through real settings. _____ historians must be careful not to treat fictional scenes as direct evidence of what actually happened.

Question:

Which choice completes the text with the most logical transition?

- A) However,
- B) Similarly,
- C) For example,
- D) Therefore,

RW7-M2-007

Prompt:

The safety checklist includes three items for each field trip _____ emergency contacts, medication information, and transportation details.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) trip
- B) trip:
- C) trip,
- D) trip;

RW7-M2-008

Prompt:

Examining the fossil under bright laboratory lights, _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) tiny tooth marks became visible along one edge
- B) one edge showed tiny tooth marks
- C) the researcher noticed tiny tooth marks along one edge
- D) there were tiny tooth marks along one edge

RW7-M2-009

Prompt:

The photographer talked with the editor after the event, and _____ agreed that one caption needed more context.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English and avoids ambiguity?

- A) they
- B) the photographer
- C) she
- D) it

RW7-M2-010

Prompt:

By the time the farmers' market opened, the vendors _____ their tents and arranged their displays.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) set up
- B) have set up
- C) had set up
- D) setting up

RW7-M2-011

Prompt:

While researching a topic, a student has taken the following notes:

- Mabel Keaton Staupers was a nurse and civil rights advocate.
- She worked to end racial discrimination in nursing organizations.
- During World War II, she advocated for Black nurses to be accepted into the US Army Nurse Corps.
- Her efforts helped expand professional opportunities for Black nurses.
- She later wrote about her work in the book *No Time for Prejudice*.

The student wants to explain the significance of Staupers's advocacy. Which choice most effectively uses relevant information from the notes?

- A) Mabel Keaton Staupers was a nurse who later wrote a book about her work.
- B) By challenging discrimination in nursing organizations and the US Army Nurse Corps, Mabel Keaton Staupers helped expand opportunities for Black nurses.
- C) During World War II, the US Army Nurse Corps included nurses who served in many locations.
- D) *No Time for Prejudice* is a book about one nurse's experiences and advocacy.

RW7-M2-012

Prompt:

A student is revising an essay about using adaptive sports equipment in school physical education classes. The student wants to add a sentence that explains a possible advantage of this equipment. Which choice best accomplishes this goal?

- A) Adaptive sports equipment can allow students with different physical abilities to participate more fully in class activities.
- B) Sports equipment may include balls, nets, rackets, mats, and other materials.
- C) Physical education classes often take place in gyms, fields, or outdoor courts.
- D) Some schools store equipment in closets or carts between class periods.

RW7-M2-013

Prompt:

The following text is from a draft of a student's essay.

(1) Some historians study ship logs to learn about ocean travel in the past. (2) These records may include dates, locations, weather conditions, and notes about repairs. (3) Because they were often written during voyages, ship logs can provide day-by-day details. (4) Researchers can use those details to reconstruct routes and challenges faced at sea.

Question:

Where should the following sentence be placed to best support the logical flow of the paragraph?

A ship log is a written record kept during a vessel's journey.

- A) After sentence 1
- B) After sentence 2
- C) After sentence 3
- D) After sentence 4

RW7-M2-014

Prompt:

The novelist's description of the city is not _____; instead of naming only streets and buildings, it includes sounds, smells, and small movements that make the setting feel alive.

Question:

Which choice completes the text with the most logical and precise word?

- A) flat
- B) accurate
- C) public
- D) recent

RW7-M2-015

Prompt:

Researchers studying an orchard found that trees located near patches of wildflowers produced more fruit than trees farther from the flowers. Because wildflowers can attract pollinating insects, the researchers concluded that planting wildflower patches may improve fruit production.

Question:

Which choice best describes the relationship between the evidence and the researchers' conclusion?

- A) The higher fruit production near wildflowers supports the conclusion that wildflower patches may help attract pollinators.
- B) The evidence proves that fruit trees cannot grow unless they are surrounded by wildflowers.
- C) The conclusion rejects the idea that insects can pollinate plants.
- D) The evidence shows that wildflowers prevent orchards from producing fruit.

RW7-M2-016

Prompt:

The article describes the artist's early training, _____ it also explains how her style changed over time.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) training, it
- B) training and
- C) training; and
- D) training, and

RW7-M2-017

Prompt:

A school tested two reminder systems to see which helped students return library books on time. One group of students received email reminders, and another group received text-message reminders. After four weeks, the text-message group had returned a larger percentage of books by the due date.

Question:

Which conclusion is best supported by the text?

- A) Under the conditions tested, text-message reminders were more effective than email reminders at encouraging on-time returns.

- B) Email reminders prevent students from returning library books.
- C) Text messages are effective only when students do not borrow books.
- D) Reminder systems cannot influence whether books are returned on time.

RW7-M2-018

Prompt:

The paragraph first explains that some cities paint bus lanes red to make them more visible to drivers. _____ it describes one city where red bus lanes were followed by fewer cars entering those lanes.

Question:

Which choice completes the text with the most logical transition?

- A) Then,
- B) Even so,
- C) In contrast,
- D) Nevertheless,

RW7-M2-019

Prompt:

The folder of documents from the town meeting _____ the agenda, speaker list, and budget summary.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) contain
- B) contains
- C) containing
- D) are containing

RW7-M2-020

Prompt:

The _____ tail helps it balance while leaping between branches.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) squirrel's
- B) squirrels
- C) squirrels'
- D) squirreles'

RW7-M2-021

Prompt:

While researching a topic, a student has taken the following notes:

- The Haudenosaunee Confederacy is a political alliance of Native nations.
- Its system includes councils and shared decision-making.
- Some historians have studied possible influences of Haudenosaunee political ideas on early US leaders.
- The confederacy existed before the founding of the United States.
- Haudenosaunee governance traditions continue today.

The student wants to introduce the Haudenosaunee Confederacy as a political system. Which choice most effectively uses relevant information from the notes?

- A) The Haudenosaunee Confederacy is a political alliance of Native nations with governance

traditions involving councils and shared decision-making.

B) Some historians study many possible influences on early US leaders.

C) The United States was founded after the Haudenosaunee Confederacy already existed.

D) Political alliances can include groups that make decisions in different ways.

RW7-M2-022

Prompt:

A student is revising the following sentence.

The local radio station broadcasts student poetry, and it also announces scholarship deadlines.

The student wants to emphasize that the radio station both showcases creative work and shares useful opportunities. Which choice best revises the sentence to accomplish this goal?

A) The local radio station showcases student creativity by broadcasting poetry while also sharing useful scholarship deadlines.

B) The local radio station broadcasts poetry, and poetry is written by some students.

C) Scholarship deadlines are announced on the local radio station, which is a station that broadcasts locally.

D) Students sometimes listen to the radio station because it includes announcements.

RW7-M2-023

Prompt:

When Daniel found the chipped blue bowl at the back of the cabinet, he almost set it aside for donation. Then he remembered how his mother used to fill it with oranges every winter, turning the kitchen table into a bright spot during the coldest months. The bowl suddenly seemed less like an old dish than a small piece of family weather.

Question:

Which choice best describes what the text suggests about Daniel?

A) Remembering the bowl's connection to his mother changes how he values it.

B) He plans to replace the bowl with a new one before winter begins.

C) He believes the bowl is too large to fit inside the cabinet.

D) He dislikes the color blue because it reminds him of cold weather.

RW7-M2-024

Prompt:

The organizers placed signs at each entrance, _____ visitors to the correct registration table.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

A) directing

B) directed

C) directs

D) and directing

RW7-M2-025

Prompt:

Because the old map used street names that had changed over time, the researcher compared it with modern records to _____ the locations.

Question:

Which choice completes the text with the most logical and precise word?

A) identify

B) decorate

- C) postpone
- D) imitate

RW7-M2-026

Prompt:

The training manual explains three responsibilities for team leaders: setting meeting goals, encouraging participation, and _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) summarizing decisions afterward
- B) decisions were summarized afterward
- C) to summarize decisions afterward
- D) summarized decisions afterward

RW7-M2-027

Prompt:

While researching a topic, a student has taken the following notes:

- Eelgrass grows in shallow coastal waters.
- Its long blades can slow water movement.
- Slower water can allow sediment to settle.
- Eelgrass beds provide shelter for young crabs, fish, and shellfish.
- Some coastal restoration projects include planting eelgrass.

The student wants to emphasize how eelgrass can support coastal ecosystems. Which choice most effectively uses relevant information from the notes?

- A) Eelgrass grows in shallow coastal waters and has long blades.
- B) By slowing water so sediment can settle and by sheltering young marine animals, eelgrass can support coastal ecosystems.
- C) Some coastal restoration projects plant eelgrass in areas where it can grow.
- D) Young crabs, fish, and shellfish live in many coastal areas.

PART C — MODULE 1 ANSWER KEY + EXPLANATIONS

RW7-M1-001 — Correct: pioneering — Explanation: Foote’s experiment was an early contribution that anticipated later climate science questions, so “pioneering” is most precise.

RW7-M1-002 — Correct: Some ants help plants reproduce by carrying and burying seeds. — Explanation: The passage explains that ants carry seeds, eat the food-rich parts, and leave the seeds underground where they may sprout.

RW7-M1-003 — Correct: The College planning workshop had the greatest attendance. — Explanation: College planning had 33 students attend, more than the other workshops.

RW7-M1-004 — Correct: Rosa learns to see value in an unexpected result. — Explanation: Rosa first thinks the uneven ink ruined the print but then decides it makes the trees seem to move.

RW7-M1-005 — Correct: It explains why bells were an effective communication tool. — Explanation: The quoted sentence explains that bells could spread important information quickly to residents who could not read announcements.

RW7-M1-006 — Correct: In addition, — Explanation: The second sentence adds another service offered by the media center.

RW7-M1-007 — Correct: shows — Explanation: The singular subject “pair” requires the singular verb “shows.”

RW7-M1-008 — Correct: a — Explanation: “Young inventor” begins with a consonant sound, so

“a” is correct.

RW7-M1-009 — Correct: it — Explanation: The singular pronoun “it” correctly refers to the committee’s report.

RW7-M1-010 — Correct: Ellen Swallow Richards, a chemist who studied water quality and sanitation, connected science to everyday health and living conditions. — Explanation: This choice introduces Richards and emphasizes the practical focus of her scientific work.

RW7-M1-011 — Correct: However, — Explanation: The second sentence contrasts the benefit of more gallery visitors with residents’ concern about crowding.

RW7-M1-012 — Correct: where it is now. — Explanation: Sentence 4 logically follows sentence 3 by giving an example of how shoppers can compare products.

RW7-M1-013 — Correct: will host — Explanation: “Next Friday” requires a future-tense verb phrase.

RW7-M1-014 — Correct: Built — Explanation: “Built from thin strips of wood” correctly modifies “the model airplane.”

RW7-M1-015 — Correct: inside because the forecast — Explanation: “Because” correctly introduces the reason the tables were moved inside.

RW7-M1-016 — Correct: reveal — Explanation: Survey responses would show or reveal students’ interests.

RW7-M1-017 — Correct: Clothing swaps can reduce waste and give people access to different clothes. — Explanation: The passage explains that swaps help people exchange clothing and keep usable items out of the trash.

RW7-M1-018 — Correct: It can help them survive after being attacked. — Explanation: The text states that regrowing arms can help sea stars survive after a predator attack.

RW7-M1-019 — Correct: The school created a digital suggestion box that students can use to propose activities, report problems, and share ideas. — Explanation: This choice combines the ideas clearly and avoids a comma splice.

RW7-M1-020 — Correct: Carlos Juan Finlay proposed that mosquitoes could spread yellow fever, an idea later supported by research and important to public health. — Explanation: This choice explains the significance of Finlay’s mosquito transmission theory.

RW7-M1-021 — Correct: Room 204 collected the greatest number of cans. — Explanation: Room 204 collected 61 cans, more than the other homerooms.

RW7-M1-022 — Correct: To give examples of behind-the-scenes work done by student theater crews — Explanation: The sentence lists several tasks theater crew members did before the performance.

RW7-M1-023 — Correct: that — Explanation: “That” correctly introduces the clause identifying which sculpture was created by a local artist.

RW7-M1-024 — Correct: to present — Explanation: The phrase completes the parallel structure: “to research,” “to design,” and “to present.”

RW7-M1-025 — Correct: useful — Explanation: Adding room numbers makes the schedule more helpful for people using it.

RW7-M1-026 — Correct: Learning basic first aid can help students respond calmly and safely to minor emergencies. — Explanation: This sentence clearly introduces the essay’s broad focus on the value of first aid.

RW7-M1-027 — Correct: As a result, — Explanation: Visitors’ improved understanding is presented as an effect of adding large-print labels.

PART D — MODULE 2 ANSWER KEY + EXPLANATIONS

RW7-M2-001 — Correct: resists — Explanation: Harjo’s poems combine personal memory and collective history rather than separating them, so they “resist” simple separation.

RW7-M2-002 — Correct: Microscopic wear on stone tools can help archaeologists understand how

the tools were used. — Explanation: The passage explains that tiny wear patterns can reveal whether tools were used for cutting, scraping, or working with plants.

RW7-M2-003 — Correct: Peer note-sharing can be useful, but the quality of the shared notes matters. — Explanation: The text says note-sharing helps absent students only when notes are clear and accurate.

RW7-M2-004 — Correct: It explains the broader social purpose suggested by Bo Bardi's designs. — Explanation: The second sentence connects Bo Bardi's architecture to how people gather and interact.

RW7-M2-005 — Correct: Students spent more time in the quiet reading area, group tables, and makerspace corner after the renovation, but less time at computer stations. — Explanation: Time increased in three areas but decreased at computer stations from 28 to 25 minutes.

RW7-M2-006 — Correct: However, — Explanation: The sentence contrasts the value of historical novels with the caution that fictional scenes are not direct evidence.

RW7-M2-007 — Correct: trip: — Explanation: A colon correctly introduces the list of three checklist items.

RW7-M2-008 — Correct: the researcher noticed tiny tooth marks along one edge — Explanation: The introductory modifier "Examining the fossil" must logically describe "the researcher."

RW7-M2-009 — Correct: the photographer — Explanation: Repeating "the photographer" avoids ambiguity about whether "they" refers to the photographer and editor together.

RW7-M2-010 — Correct: had set up — Explanation: The past perfect tense shows that the vendors set up tents before the market opened.

RW7-M2-011 — Correct: By challenging discrimination in nursing organizations and the US Army Nurse Corps, Mabel Keaton Staupers helped expand opportunities for Black nurses. — Explanation: This choice explains the significance of Staupers's advocacy by connecting it to expanded professional opportunities.

RW7-M2-012 — Correct: Adaptive sports equipment can allow students with different physical abilities to participate more fully in class activities. — Explanation: This sentence directly explains a possible advantage of adaptive sports equipment.

RW7-M2-013 — Correct: After sentence 1 — Explanation: The added sentence defines "ship log" immediately after the term is introduced.

RW7-M2-014 — Correct: flat — Explanation: The description is rich with sensory details, so it is not flat.

RW7-M2-015 — Correct: The higher fruit production near wildflowers supports the conclusion that wildflower patches may help attract pollinators. — Explanation: The evidence links trees near wildflowers with more fruit, supporting the idea that pollinator-attracting flowers may improve production.

RW7-M2-016 — Correct: training, and — Explanation: A comma plus "and" correctly joins two independent clauses.

RW7-M2-017 — Correct: Under the conditions tested, text-message reminders were more effective than email reminders at encouraging on-time returns. — Explanation: The text-message group returned a larger percentage of books by the due date.

RW7-M2-018 — Correct: Then, — Explanation: The paragraph moves from a general explanation of red bus lanes to a specific city example.

RW7-M2-019 — Correct: contains — Explanation: The singular subject "folder" requires the singular verb "contains."

RW7-M2-020 — Correct: squirrel's — Explanation: The sentence refers to one squirrel, so the singular possessive "squirrel's" is correct.

RW7-M2-021 — Correct: The Haudenosaunee Confederacy is a political alliance of Native nations with governance traditions involving councils and shared decision-making. — Explanation: This choice introduces the confederacy as a political system and includes key features of its governance.

RW7-M2-022 — Correct: The local radio station showcases student creativity by broadcasting

poetry while also sharing useful scholarship deadlines. — Explanation: This revision emphasizes both creative work and practical opportunity information.

RW7-M2-023 — Correct: Remembering the bowl's connection to his mother changes how he values it. — Explanation: Daniel first considers donating the bowl, but a memory of his mother makes it seem meaningful.

RW7-M2-024 — Correct: directing — Explanation: The participle “directing” correctly shows the result or function of placing the signs.

RW7-M2-025 — Correct: identify — Explanation: Comparing old and modern records helps the researcher determine the locations despite changed street names.

RW7-M2-026 — Correct: summarizing decisions afterward — Explanation: This choice keeps the list grammatically parallel: “setting,” “encouraging,” and “summarizing.”

RW7-M2-027 — Correct: By slowing water so sediment can settle and by sheltering young marine animals, eelgrass can support coastal ecosystems. — Explanation: This choice emphasizes two ecosystem benefits of eelgrass: slowing water and providing shelter.
