

PART A — MODULE 1 QUESTIONS

RW10-M1-001

Prompt:

Choreographer Katherine Dunham studied anthropology as well as dance. She used field research in the Caribbean to inform performances that combined movement, music, and cultural history. Because her work joined artistic practice with academic study, Dunham’s career is often described as _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) interdisciplinary
- B) accidental
- C) temporary
- D) silent

RW10-M1-002

Prompt:

Some farmers plant cover crops after the main harvest. Cover crops such as clover or rye can protect bare soil from erosion, add organic matter, and reduce weed growth before the next planting season. Although these crops may not be sold, they can still improve the health of a field.

Question:

Which choice best states the main idea of the text?

- A) Cover crops can improve soil conditions even when they are not grown for sale.
- B) Cover crops are planted only because they produce the most valuable harvests.
- C) Bare soil is always healthier than soil covered by plants.
- D) Clover and rye prevent farmers from planting other crops later.

RW10-M1-003

Prompt:

The group of students in the recording studio _____ ready to begin the podcast interview.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) are
- B) were
- C) is
- D) have been

RW10-M1-004

Prompt:

A student recorded the number of visitors to four displays at a history night event.

Display Visitors
Railroad maps 44
Military letters 38
School photographs 52
Farm tools 47

Question:

Which choice is supported by the data in the table?

- A) The School photographs display had the greatest number of visitors.
- B) The Military letters display had more visitors than the Farm tools display.

- C) The Railroad maps and School photographs displays had the same number of visitors.
D) No display had more than 47 visitors.

RW10-M1-005

Prompt:

Evan wanted to solve the puzzle as quickly as possible, so he guessed at each answer without reading the clues carefully. After several wrong attempts, he slowed down and began underlining important words. The next solution took longer, but it was correct.

Question:

Which choice best describes what happens in the text?

- A) Evan becomes more successful when he pays closer attention.
B) Evan stops working on the puzzle because he dislikes clues.
C) Evan proves that guessing is always better than reading carefully.
D) Evan creates a new puzzle for other students to solve.

RW10-M1-006

Prompt:

In a passage about ancient Roman roads, a historian explains that stone markers were placed at intervals along important routes. The historian adds, “These markers could show distances to nearby towns, helping travelers estimate how far they still needed to go.”

Question:

What is the main function of the quoted sentence?

- A) It explains a practical use of stone markers along Roman roads.
B) It argues that Roman travelers never visited nearby towns.
C) It describes how stones were cut from quarries.
D) It shows that ancient roads were built without planning.

RW10-M1-007

Prompt:

The school greenhouse gives biology classes a place to observe plant growth. _____ culinary students sometimes use herbs grown there in cooking lessons.

Question:

Which choice completes the text with the most logical transition?

- A) In addition,
B) However,
C) As a result,
D) Instead,

RW10-M1-008

Prompt:

The article describes the aye-aye, _____ nocturnal lemur found in Madagascar.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) a
B) an
C) the
D) those

RW10-M1-009

Prompt:

The tablet screen was cracked, so the technician replaced _____ before returning the device to the

student.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) it
- B) them
- C) they
- D) themselves

RW10-M1-010

Prompt:

While researching a topic, a student has taken the following notes:

- Subrahmanyan Chandrasekhar was an astrophysicist.
- He studied the life cycles of stars.
- He calculated a limit related to the mass of white dwarf stars.
- His work helped scientists understand what can happen to stars after they use up their fuel.
- Chandrasekhar received the Nobel Prize in Physics in 1983.

The student wants to explain the significance of Chandrasekhar's scientific work. Which choice most effectively uses relevant information from the notes?

- A) Subrahmanyan Chandrasekhar's work on white dwarf stars helped scientists understand later stages in the lives of stars.
- B) Subrahmanyan Chandrasekhar received the Nobel Prize in Physics in 1983.
- C) Stars can be studied by scientists using many different methods.
- D) A white dwarf is one type of object found in space.

RW10-M1-011

Prompt:

The new online gradebook lets students check assignment scores quickly. _____ some students say they still prefer written comments because comments explain how to improve.

Question:

Which choice completes the text with the most logical transition?

- A) However,
- B) For example,
- C) Therefore,
- D) Similarly,

RW10-M1-012

Prompt:

The following text is from a draft of a student's essay.

(1) A community seed exchange allows gardeners to share seeds with one another. (2) Participants may bring seeds from vegetables, flowers, or herbs they have grown. (3) Exchanging seeds can help gardeners try new plants without buying every packet. (4) It can also help preserve plant varieties that grow well in local conditions.

Question:

To make the paragraph most logical, sentence 2 should be placed

- A) where it is now.
- B) before sentence 1.

- C) after sentence 4.
- D) between sentence 3 and sentence 4.

RW10-M1-013

Prompt:

Tomorrow morning, the student council _____ welcome signs for the visiting eighth graders.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) makes
- B) made
- C) will make
- D) making

RW10-M1-014

Prompt:

_____ from sheets of recycled metal, the sculpture reflected sunlight across the courtyard.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) Shaped
- B) Shaping
- C) To shape
- D) Shape

RW10-M1-015

Prompt:

The class stayed after school _____ the group presentation needed one final rehearsal.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) school, the group
- B) school because the group
- C) school; because the group
- D) school, because, the group

RW10-M1-016

Prompt:

To find out which cafeteria meals students preferred, the nutrition director compared how many servings of each meal were chosen during the month. She used the results to _____ future menu choices.

Question:

Which choice completes the text with the most logical and precise word?

- A) guide
- B) conceal
- C) interrupt
- D) decorate

RW10-M1-017

Prompt:

Some schools run uniform closets, where families can donate clean shirts, jackets, or pants that no longer fit. Other students can then take needed items at no cost. These closets can reduce waste while helping families meet school clothing requirements.

Question:

Which choice best states the main idea of the text?

- A) Uniform closets can help families obtain school clothing while keeping usable items from being wasted.
- B) Uniform closets require families to buy new clothing before donating anything.
- C) Donated clothing can never be used by other students.
- D) School clothing requirements are always easier to meet without donated items.

RW10-M1-018

Prompt:

Scientists studying desert tortoises note that the animals spend much of the hottest part of the day in burrows. These underground spaces are cooler than the surface and help the tortoises avoid overheating.

Question:

According to the text, why do desert tortoises use burrows during the hottest part of the day?

- A) To stay cooler and avoid overheating
- B) To collect food from tree branches
- C) To make the desert surface hotter
- D) To build nests above the ground

RW10-M1-019

Prompt:

A student is revising the following sentence.

The school created a peer math desk, and students can visit it to review formulas, practice problems, or ask for help.

Question:

Which choice best combines the ideas clearly and concisely?

- A) The school created a peer math desk where students can review formulas, practice problems, or ask for help.
- B) The school created a peer math desk, students can visit it to review formulas, practice problems, or ask for help.
- C) The school created a peer math desk and reviewing formulas, practicing problems, or asking for help.
- D) The school created a peer math desk because students, formulas, problems, and help.

RW10-M1-020

Prompt:

While researching a topic, a student has taken the following notes:

- Lili‘uokalani was the last monarch of the Kingdom of Hawai‘i.
- She was also a composer and writer.
- Her song “Aloha ‘Oe” became widely known.
- She wrote about Hawaiian history and her experiences.
- Her creative work remains an important part of Hawaiian cultural memory.

The student wants to introduce Lili‘uokalani as both a historical and creative figure. Which choice most effectively uses relevant information from the notes?

- A) Lili‘uokalani, the last monarch of the Kingdom of Hawai‘i, was also a composer and writer whose creative work remains culturally important.
- B) “Aloha ‘Oe” is a song that became widely known after it was written.

- C) Hawaiian history includes many events that writers have described.
- D) A monarch is a ruler, and some rulers have also supported the arts.

RW10-M1-021

Prompt:

A student recorded the number of minutes four groups spent testing their egg-drop designs.

Group	Minutes tested
Group 1	21
Group 2	28
Group 3	25
Group 4	19

Question:

Which choice is supported by the data in the table?

- A) Group 2 spent the most time testing.
- B) Group 4 spent more time testing than Group 3.
- C) Group 1 and Group 3 spent the same amount of time testing.
- D) No group spent more than 25 minutes testing.

RW10-M1-022

Prompt:

In a paragraph about student art exhibitions, a writer states, “Students selected pieces for display, wrote labels for their artwork, arranged frames, and greeted visitors on opening night.”

Question:

What is the most likely purpose of the sentence?

- A) To give examples of responsibilities students handled for the exhibition
- B) To explain why artwork should never be labeled
- C) To argue that visitors should arrange frames themselves
- D) To compare student art exhibitions with professional sports events

RW10-M1-023

Prompt:

The microscope _____ sits beside the lab sink is used for examining pond water samples.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) that
- B) who
- C) where
- D) when

RW10-M1-024

Prompt:

The guide teaches hikers to check weather conditions, to pack enough water, and _____ marked trails.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) following
- B) to follow
- C) followed
- D) the following of

RW10-M1-025

Prompt:

The directions to the meeting room were unclear, so the office assistant added arrows and floor numbers to make the route more _____.

Question:

Which choice completes the text with the most logical and precise word?

- A) obvious
- B) fragile
- C) accidental
- D) crowded

RW10-M1-026

Prompt:

A student wants to begin an essay about the benefits of school breakfast programs. Which choice would be the most effective opening sentence for the essay?

- A) School breakfast programs can help students start the day with food they need to focus and learn.
- B) Breakfast foods can include cereal, fruit, toast, yogurt, and many other items.
- C) Some school cafeterias have long tables, while others have round tables.
- D) My school cafeteria opens its doors before first period begins.

RW10-M1-027

Prompt:

The park added benches along the longest walking path. _____ visitors who needed to rest had more places to sit.

Question:

Which choice completes the text with the most logical transition?

- A) As a result,
- B) Nevertheless,
- C) For example,
- D) In comparison,

PART B — MODULE 2 QUESTIONS

RW10-M2-001

Prompt:

In her ceramic sculptures, artist Toshiko Takaezu often created closed forms with small openings, so viewers could not fully see the interior space. This choice made the unseen inside of each work feel as important as the visible surface. Takaezu's sculptures therefore _____ the viewer's attention between exterior form and hidden space.

Question:

Which choice completes the text with the most logical and precise word?

- A) divide
- B) erase
- C) repeat
- D) postpone

RW10-M2-002

Prompt:

Researchers studying ancient soot on cave ceilings can learn about human activity in the past. When people burned torches or fires in caves, smoke sometimes left thin layers of soot overhead. By dating these layers, scientists can estimate when people entered or used particular parts of a cave.

Question:

Which choice best states the main idea of the text?

- A) Soot layers on cave ceilings can help scientists study when people used caves.
- B) Cave ceilings are useful to scientists only when they contain no marks.
- C) Ancient soot prevents researchers from learning about human activity.
- D) People in the past entered caves only when they did not use fire.

RW10-M2-003

Prompt:

Some schools have replaced fixed computer labs with carts of laptops that teachers can reserve for different classrooms. This system can make technology available in more parts of a building, but it also requires careful scheduling and charging routines. Otherwise, classes may find that laptops are unavailable or have low batteries when needed.

Question:

Which choice is the best inference from the text?

- A) Mobile laptop carts can increase access to technology, but they need organized management.
- B) Laptop carts make classroom technology impossible to use.
- C) Fixed computer labs never require scheduling.
- D) Laptops work best when they are not charged between uses.

RW10-M2-004

Prompt:

A student's draft about writer Sandra Cisneros includes the following sentences.

Cisneros often writes in brief, vivid sections rather than in long chapters. This structure can make individual moments stand out sharply while also building a larger picture of a neighborhood, family, or life.

Question:

What is the main function of the second sentence in the text?

- A) It explains how Cisneros's structure affects the reader's experience of her writing.
- B) It argues that Cisneros's writing contains no connections between sections.
- C) It lists all the neighborhoods described in Cisneros's work.
- D) It shows that long chapters are required for vivid writing.

RW10-M2-005

Prompt:

A researcher compared the average number of minutes students spent using four features of a language-learning app before and after a design update.

Feature	Before update	After update
---------	---------------	--------------

Vocabulary games	13	19
------------------	----	----

Listening practice	24	28
--------------------	----	----

Grammar review	30	26
----------------	----	----

Speaking recorder	15	22
-------------------	----	----

Question:

Which choice best describes the data?

- A) Students spent more time using vocabulary games, listening practice, and the speaking recorder after the update, but less time using grammar review.
- B) Students spent less time using all four features after the update.

- C) Grammar review had the greatest increase after the update.
D) Vocabulary games and speaking recorder had the same time after the update.

RW10-M2-006

Prompt:

A class visit to a courthouse can help students see how legal procedures work in practice. _____ teachers must prepare students beforehand so they understand courtroom rules and know how to observe respectfully.

Question:

Which choice completes the text with the most logical transition?

- A) However,
B) Similarly,
C) For example,
D) Therefore,

RW10-M2-007

Prompt:

The recipe booklet includes three sections for beginning cooks _____ basic knife skills, simple sauces, and one-pan dinners.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) cooks
B) cooks:
C) cooks,
D) cooks;

RW10-M2-008

Prompt:

Sorting through the photographs from the field survey, _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) several images of the same bird species appeared
B) the bird species appeared in several images
C) the researchers found several images of the same bird species
D) there were several images of the same bird species

RW10-M2-009

Prompt:

The poet spoke with the translator after the reading, and _____ agreed that one line should remain in the original language.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English and avoids ambiguity?

- A) they
B) the poet
C) she
D) it

RW10-M2-010

Prompt:

By the time the science demonstration started, the students _____ the beakers and measuring tools

on the front table.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) arrange
- B) have arranged
- C) had arranged
- D) arranging

RW10-M2-011

Prompt:

While researching a topic, a student has taken the following notes:

- Cecilia Payne-Gaposchkin was an astronomer.
- She studied the light spectra of stars.
- Her analysis showed that stars are made mostly of hydrogen and helium.
- This conclusion changed scientific understanding of stellar composition.
- She later became a professor and department chair at Harvard.

The student wants to explain the importance of Payne-Gaposchkin's research. Which choice most effectively uses relevant information from the notes?

- A) Cecilia Payne-Gaposchkin's analysis of stellar spectra showed that stars are made mostly of hydrogen and helium, changing understanding of stellar composition.
- B) Cecilia Payne-Gaposchkin later became a professor and department chair at Harvard.
- C) Astronomers study stars by examining many kinds of information from space.
- D) Hydrogen and helium are two elements that scientists have identified.

RW10-M2-012

Prompt:

A student is revising an essay about libraries offering memory kits for people with dementia. These kits may include music, photographs, simple games, or familiar objects. The student wants to add a sentence that explains a possible advantage of the kits. Which choice best accomplishes this goal?

- A) Memory kits can give caregivers ready-to-use materials that may encourage conversation and connection.
- B) Libraries can contain books, computers, meeting rooms, and many other resources.
- C) Some simple games have cards, boards, tiles, or matching pieces.
- D) Music recordings are available in many formats, including digital files.

RW10-M2-013

Prompt:

The following text is from a draft of a student's essay.

(1) Some researchers study pollen collected by bees to learn about the plants in an area. (2) Bees gather pollen while visiting flowers for food. (3) By identifying the pollen grains carried by bees, researchers can learn which flowers bees are using. (4) This information can help scientists understand relationships between pollinators and local plant communities.

Question:

Where should the following sentence be placed to best support the logical flow of the paragraph?

Different plant species produce pollen grains with different shapes and patterns.

- A) After sentence 1

- B) After sentence 2
- C) After sentence 3
- D) After sentence 4

RW10-M2-014

Prompt:

The museum's description of the artifact was not _____; it included the object's age, material, likely use, and the region where it was found.

Question:

Which choice completes the text with the most logical and precise word?

- A) incomplete
- B) public
- C) recent
- D) fragile

RW10-M2-015

Prompt:

Researchers studying a city park found that sections with more benches and shade trees had longer average visitor stays than sections with few benches and little shade. The researchers concluded that comfortable resting places may encourage people to spend more time in parks.

Question:

Which choice best describes the relationship between the evidence and the researchers' conclusion?

- A) The longer stays in sections with benches and shade support the conclusion that comfortable resting places may increase time spent in parks.
- B) The evidence proves that visitors never walk through areas without benches.
- C) The conclusion rejects the idea that shade can affect how people use parks.
- D) The evidence shows that benches and trees make parks impossible to maintain.

RW10-M2-016

Prompt:

The email explains the volunteer schedule, _____ it also includes instructions for checking in at the event.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) schedule, it
- B) schedule and
- C) schedule; and
- D) schedule, and

RW10-M2-017

Prompt:

A designer tested two label layouts for a medicine bottle. Volunteers were given bottles with Layout A or Layout B and asked to find the dosage information. Volunteers using Layout B found the information faster on average than volunteers using Layout A.

Question:

Which conclusion is best supported by the text?

- A) Under the conditions tested, Layout B made dosage information easier to find than Layout A did.
- B) Layout A and Layout B contained different medicine ingredients.
- C) Volunteers using Layout B were not asked to find dosage information.
- D) Label layout cannot affect how quickly people find information.

RW10-M2-018

Prompt:

The article first explains that some towns create curb extensions to shorten pedestrian crossing distances. _____ it describes a town where curb extensions were followed by slower vehicle turns near a school.

Question:

Which choice completes the text with the most logical transition?

- A) Then,
- B) Even so,
- C) In contrast,
- D) Nevertheless,

RW10-M2-019

Prompt:

The file of scanned newspaper articles _____ editorials, sports reports, advertisements, and weather notices.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) include
- B) includes
- C) including
- D) are including

RW10-M2-020

Prompt:

The _____ scales overlap in neat rows, helping protect the fish as it swims among rocks.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) fish's
- B) fishes
- C) fishes'
- D) fishes's

RW10-M2-021

Prompt:

While researching a topic, a student has taken the following notes:

- The Bracero Program brought Mexican laborers to work in the United States.
- The program began during World War II.
- Many workers labored in agriculture and railroad maintenance.
- The program addressed labor shortages but also involved difficult working conditions for many participants.
- It shaped migration and labor history in North America.

The student wants to give a balanced description of the Bracero Program. Which choice most effectively uses relevant information from the notes?

- A) The Bracero Program brought Mexican laborers to the United States during World War II to address labor shortages, but many participants faced difficult working conditions.
- B) The Bracero Program began during World War II and included workers in agriculture and railroad maintenance.

- C) Railroad maintenance was one type of work done by some laborers in the Bracero Program.
- D) Labor shortages can occur during wars, harvest seasons, and periods of rapid economic change.

RW10-M2-022

Prompt:

A student is revising the following sentence.

The school's translation club helps families read school forms, and members also practice real-world language skills.

The student wants to emphasize that the club both serves the community and supports student learning. Which choice best revises the sentence to accomplish this goal?

- A) By helping families understand school forms, the translation club serves the community while giving members practice with real-world language skills.
- B) The school's translation club has members, and the members use language skills.
- C) School forms can be translated by students in a club that is part of the school.
- D) Families sometimes receive school forms, and students sometimes practice languages.

RW10-M2-023

Prompt:

Jalen found the cracked clay whistle in a box of classroom supplies. No one knew who had made it, and it produced only one faint note. Still, when he blew into it, the sound seemed to belong to some earlier student sitting at the same table years before him.

Question:

Which choice best describes what the text suggests about Jalen?

- A) He imagines a connection between the object and an unknown student from the past.
- B) He is disappointed because the whistle plays too many different notes.
- C) He decides that the whistle must be thrown away immediately.
- D) He knows exactly which student made the whistle.

RW10-M2-024

Prompt:

The gardener planted taller flowers along the back edge of the bed, _____ the shorter flowers in front easier to see.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) making
- B) made
- C) makes
- D) and making

RW10-M2-025

Prompt:

Because the handwritten label on the specimen jar had faded, the archivist checked the catalog number to _____ the specimen's identity.

Question:

Which choice completes the text with the most logical and precise word?

- A) verify
- B) imitate
- C) postpone
- D) decorate

RW10-M2-026

Prompt:

The guide lists three methods for keeping a research notebook organized: dating each entry, labeling diagrams clearly, and _____.

Question:

Which choice completes the text so that it conforms to the conventions of Standard English?

- A) recording questions for follow-up
- B) questions were recorded for follow-up
- C) to record questions for follow-up
- D) recorded questions for follow-up

RW10-M2-027

Prompt:

While researching a topic, a student has taken the following notes:

- Oyster reefs form when oysters attach to hard surfaces and to one another.
- These reefs can create habitat for small fish, crabs, and other organisms.
- Oysters filter water while feeding.
- Reefs can also reduce wave energy near shorelines.
- Some coastal restoration projects rebuild oyster reefs.

The student wants to emphasize two ecological benefits of oyster reefs. Which choice most effectively uses relevant information from the notes?

- A) Oyster reefs can create habitat for small marine organisms and help filter water as oysters feed.
- B) Oyster reefs form when oysters attach to hard surfaces and to one another.
- C) Some restoration projects rebuild oyster reefs near coastlines.
- D) Wave energy can affect shorelines in places where oysters live.

PART C — MODULE 1 ANSWER KEY + EXPLANATIONS

RW10-M1-001 — Correct: interdisciplinary — Explanation: Dunham’s work combined dance with anthropology and cultural research, so “interdisciplinary” is the most precise choice.

RW10-M1-002 — Correct: Cover crops can improve soil conditions even when they are not grown for sale. — Explanation: The passage explains that cover crops protect soil, add organic matter, and reduce weeds even though they may not be sold.

RW10-M1-003 — Correct: is — Explanation: The singular subject “group” requires the singular verb “is.”

RW10-M1-004 — Correct: The School photographs display had the greatest number of visitors. — Explanation: The School photographs display had 52 visitors, more than the other displays.

RW10-M1-005 — Correct: Evan becomes more successful when he pays closer attention. — Explanation: Evan guesses quickly at first, but after slowing down and underlining important words, he gets the solution correct.

RW10-M1-006 — Correct: It explains a practical use of stone markers along Roman roads. — Explanation: The quoted sentence explains that markers helped travelers estimate distances.

RW10-M1-007 — Correct: In addition, — Explanation: The second sentence adds another use of the school greenhouse.

RW10-M1-008 — Correct: a — Explanation: “Nocturnal lemur” begins with a consonant sound, so “a” is correct.

RW10-M1-009 — Correct: it — Explanation: The singular pronoun “it” correctly refers to the cracked tablet screen.

RW10-M1-010 — Correct: Subrahmanyan Chandrasekhar’s work on white dwarf stars helped

scientists understand later stages in the lives of stars. — Explanation: This choice explains the significance of Chandrasekhar’s work by connecting it to stellar life cycles.

RW10-M1-011 — Correct: However, — Explanation: The sentence contrasts the usefulness of quick score access with students’ preference for explanatory written comments.

RW10-M1-012 — Correct: where it is now. — Explanation: Sentence 2 logically explains what participants bring before the paragraph describes benefits of the exchange.

RW10-M1-013 — Correct: will make — Explanation: “Tomorrow morning” requires a future-tense verb phrase.

RW10-M1-014 — Correct: Shaped — Explanation: “Shaped from sheets of recycled metal” correctly modifies “the sculpture.”

RW10-M1-015 — Correct: school because the group — Explanation: “Because” correctly introduces the reason the class stayed after school.

RW10-M1-016 — Correct: guide — Explanation: The nutrition director uses student meal-choice data to help decide future menus, so “guide” is precise.

RW10-M1-017 — Correct: Uniform closets can help families obtain school clothing while keeping usable items from being wasted. — Explanation: The passage explains that uniform closets provide no-cost clothing and reduce waste.

RW10-M1-018 — Correct: To stay cooler and avoid overheating — Explanation: The text states that burrows are cooler than the surface and help tortoises avoid overheating.

RW10-M1-019 — Correct: The school created a peer math desk where students can review formulas, practice problems, or ask for help. — Explanation: This choice combines the ideas clearly and avoids a comma splice.

RW10-M1-020 — Correct: Lili‘uokalani, the last monarch of the Kingdom of Hawai‘i, was also a composer and writer whose creative work remains culturally important. — Explanation: This choice introduces Lili‘uokalani as both a historical ruler and a creative figure.

RW10-M1-021 — Correct: Group 2 spent the most time testing. — Explanation: Group 2 spent 28 minutes testing, more than the other groups.

RW10-M1-022 — Correct: To give examples of responsibilities students handled for the exhibition — Explanation: The sentence lists exhibition responsibilities such as selecting pieces, writing labels, arranging frames, and greeting visitors.

RW10-M1-023 — Correct: that — Explanation: “That” correctly introduces the clause identifying which microscope is used for pond water samples.

RW10-M1-024 — Correct: to follow — Explanation: The phrase completes the parallel structure: “to check,” “to pack,” and “to follow.”

RW10-M1-025 — Correct: obvious — Explanation: Adding arrows and floor numbers would make the route easier to recognize and follow.

RW10-M1-026 — Correct: School breakfast programs can help students start the day with food they need to focus and learn. — Explanation: This sentence clearly introduces the essay’s focus on the benefits of school breakfast programs.

RW10-M1-027 — Correct: As a result, — Explanation: Visitors having more places to rest is presented as an effect of adding benches.

PART D — MODULE 2 ANSWER KEY + EXPLANATIONS

RW10-M2-001 — Correct: divide — Explanation: The sculptures make both the exterior and hidden interior important, so they divide attention between visible form and unseen space.

RW10-M2-002 — Correct: Soot layers on cave ceilings can help scientists study when people used caves. — Explanation: The passage explains that soot layers from fires can be dated to estimate when people used cave spaces.

RW10-M2-003 — Correct: Mobile laptop carts can increase access to technology, but they need organized management. — Explanation: The text says carts make laptops available in more rooms

but require scheduling and charging routines.

RW10-M2-004 — Correct: It explains how Cisneros’s structure affects the reader’s experience of her writing. — Explanation: The second sentence explains how brief sections make moments stand out while building a larger picture.

RW10-M2-005 — Correct: Students spent more time using vocabulary games, listening practice, and the speaking recorder after the update, but less time using grammar review. — Explanation: Time increased for three features and decreased for grammar review from 30 to 26 minutes.

RW10-M2-006 — Correct: However, — Explanation: The sentence contrasts the benefit of courthouse visits with the need for preparation.

RW10-M2-007 — Correct: cooks: — Explanation: A colon correctly introduces the list of three sections.

RW10-M2-008 — Correct: the researchers found several images of the same bird species — Explanation: The introductory modifier “Sorting through the photographs” must logically describe “the researchers.”

RW10-M2-009 — Correct: the poet — Explanation: Repeating “the poet” avoids ambiguity about whether “they” refers to the poet and translator together.

RW10-M2-010 — Correct: had arranged — Explanation: The past perfect tense shows that the students arranged the materials before the demonstration started.

RW10-M2-011 — Correct: Cecilia Payne-Gaposchkin’s analysis of stellar spectra showed that stars are made mostly of hydrogen and helium, changing understanding of stellar composition. — Explanation: This choice explains the importance of Payne-Gaposchkin’s research by connecting her evidence to a major conclusion about stars.

RW10-M2-012 — Correct: Memory kits can give caregivers ready-to-use materials that may encourage conversation and connection. — Explanation: This sentence directly explains a possible advantage of memory kits for caregivers and people with dementia.

RW10-M2-013 — Correct: After sentence 2 — Explanation: The added sentence explains why pollen can be identified before sentence 3 describes researchers identifying pollen grains.

RW10-M2-014 — Correct: incomplete — Explanation: The description included age, material, use, and region, so it was not incomplete.

RW10-M2-015 — Correct: The longer stays in sections with benches and shade support the conclusion that comfortable resting places may increase time spent in parks. — Explanation: The evidence links longer visits to park sections with benches and shade trees.

RW10-M2-016 — Correct: schedule, and — Explanation: A comma plus “and” correctly joins two independent clauses.

RW10-M2-017 — Correct: Under the conditions tested, Layout B made dosage information easier to find than Layout A did. — Explanation: Volunteers using Layout B found dosage information faster on average.

RW10-M2-018 — Correct: Then, — Explanation: The paragraph moves from a general explanation of curb extensions to a specific town example.

RW10-M2-019 — Correct: includes — Explanation: The singular subject “file” requires the singular verb “includes.”

RW10-M2-020 — Correct: fish’s — Explanation: The sentence refers to one fish, so the singular possessive “fish’s” is correct.

RW10-M2-021 — Correct: The Bracero Program brought Mexican laborers to the United States during World War II to address labor shortages, but many participants faced difficult working conditions. — Explanation: This choice gives a balanced description by presenting both the program’s purpose and a difficulty workers faced.

RW10-M2-022 — Correct: By helping families understand school forms, the translation club serves the community while giving members practice with real-world language skills. — Explanation: This revision emphasizes both community service and student learning.

RW10-M2-023 — Correct: He imagines a connection between the object and an unknown student

from the past. — Explanation: The whistle makes Jalen think of an earlier student who may have used the same classroom.

RW10-M2-024 — Correct: making — Explanation: The participle “making” correctly shows the result of placing taller flowers along the back edge.

RW10-M2-025 — Correct: verify — Explanation: The archivist uses the catalog number to confirm the specimen’s identity.

RW10-M2-026 — Correct: recording questions for follow-up — Explanation: This choice keeps the list grammatically parallel: “dating,” “labeling,” and “recording.”

RW10-M2-027 — Correct: Oyster reefs can create habitat for small marine organisms and help filter water as oysters feed. — Explanation: This choice emphasizes two ecological benefits: habitat creation and water filtering.
